GLEN MILLER BALLROOM

Renovation Updates: November 17, 2014

We are adding a second set of doors to the ballroom (left) to decrease noise from the hallway. There is also a new entrance to the Aspen Rooms (right) to allow them to serve as pre-function space.

You can see the stage come together with the lowered height, and it is ready for new AV and lightbar installations.

The catering kitchen has a new layout to support new equipment and a smooth flow of traffic for both in-house and delivered catered events.

The paint is on the walls and more finishing touches are around the corner. We can’t wait to work with you on your event in this amazing space!
