Environmental Economics 4545

Third Assignment: Paper Topic, Due April 6th at the beginning of class

It is time to get serious about your paper.

For this second paper assignment, I need

the title

a two to three page summary of the topic and issues with as much detail as you can provide, including theory, concepts, stylized facts, etc.

a list of your sources and references, including section(s) from Kahn

As before:

Make sure your topic has economic content; that is, convince the reader that your topic has relevance to a course in environmental economics.

Describe the issue/problem/task using economic terminology

What does economic theory predict?

If your topic has an equity and/or efficiency angle associated with it, make this clear

If your topic deals with a market failure, make this clear and identify the type(s) of market failure.

Much of the work on your paper needs to be complete for you to do a good job on this assignment.
