# Tables

1-1 1998 per Day and per Angler Damages for Open-Water Fishing in the Wisconsin Waters of Green Bay ................................................ 1-11
1-2 Total Values for Recreational Fishing Service Losses for the Waters of Green Bay Resulting from Fish Consumption Advisories for PCBs .......................... 1-12

2-1 Hours of Fishing Effort on the Michigan and Wisconsin Waters of Green Bay: 1990-1998 .................................................. 2-3
2-2 Open-Water Fishing Hours on the Fox River from Its Mouth to the Dam at DePere: 1990-1998 ........................................ 2-4
2-3 Ice-Fishing Hours on the Wisconsin Waters of Green Bay: 1990-1998 ........................................ 2-4
2-4 Percent of Total Catch by Species for the Wisconsin Waters of Green Bay and Lake Michigan: 1990-1998 ........................................ 2-5
2-5 Percent of Open-Water Catch on Wisconsin Waters of Green Bay by Species: 1986-1998 .................................................. 2-6
2-6 Percent of Targeted Open-Water Angling Hours on Wisconsin Waters of Green Bay by Species: 1986-1998 ........................................ 2-7
2-7 Percent of Catch on Michigan Waters of Green Bay by Species: 1985-1998 ........................................ 2-8
2-8 Fish Consumption Advisories for the Wisconsin Waters of Green Bay: 1976-1999 ........................................ 2-11
2-9 Fish Consumption Advisories for the Lower Fox River between Green Bay and the Dam at DePere ........................................ 2-14
2-10 1998 Wisconsin FCAs for Green Bay and Fox River, and Michigan FCAs for Lower Green Bay, Upper Green Bay, and Little Bay de Noc ........................................ 2-15
2-11 State of Michigan Fish Consumption Advisories for Green Bay South of Cedar River: 1988-1997 ........................................ 2-17
2-12 State of Michigan Fish Consumption Advisories for Little Bay de Noc: 1989-1997 ........................................ 2-18
2-13 Studies of Behavioral Responses by Anglers to Fish Consumption Advisories ........................................ 2-19
2-14 Selected Valuation Studies for Changes on Catch Rates ........................................ 2-23
2-15 Selected Valuation Studies for the Reduction of Toxins at Fishing Sites ........................................ 2-24

3-1 Percent of Boat Anglers from Lake Michigan District Counties Choosing the Fox River or Green Bay as Their Most Frequently Visited Site ........................................ 3-5
3-2 1997-1998 Angling License Samples Obtained ........................................ 3-7
3-3 Timeline for Sampling of Licenses by County ........................................ 3-7
3-4 1997-1998 Angling License Sample Obtained ........................................ 3-9
3-5 Proportion of Starting Sample with Available Phone Number ........................................ 3-11
3-6 Disposition of Telephone Survey Sample ........................................ 3-12
3-7 Disposition of Sample by County Where License Purchased ........................................ 3-13
3-8 Telephone Survey Respondent Green Bay Fishing Activity in 1998 ............. 3-13
3-9 Recreation Survey Pretesting Steps .................................................. 3-15
3-10 Disposition of Mail Survey Sample .................................................. 3-20
3-11 Mean Fishing Days to All Sites in 1998 by Green Bay Experience .......... 3-22
3-12 Socioeconomic Profile by Green Bay Experience ................................ 3-23
3-13 Importance Rating of 10 Actions to Improve Wisconsin Fishing .......... 3-24
3-14 Fishing Days in 1998: Mail Respondents versus Nonrespondents ........ 3-27
3-15 Importance Rating of 10 Actions to Improve Wisconsin Fishing: Mail Survey Respondents versus Nonrespondents .............................................. 3-28
3-16 Adjustment from the Mail Sample Estimated Open-Water Fishing Days
   to the Population Estimated Open-Water Fishing Days in 1998 for Anglers Active
   in Open-Water Fishing on the Wisconsin Waters of Green Bay ............... 3-31
3-17 1998 Green Bay Angler Incidence Rate by County Where License Purchased 3-34
3-18 Number and Percent of Sampled 1998 Green Bay Angler Fishing Days by
   Resident State/County ....................................................................... 3-35
3-19 Mean Days Fishing Green Bay in 1998 by Resident State ................... 3-36

4-1 Number of Days Fishing in 1998 by Mail Survey Respondents .............. 4-3
4-2 Total Number of Reported Fishing Days on Wisconsin Waters of Green Bay in 1998, by Residence, for Mail Survey Respondents ....................... 4-5
4-3 Number of Reported Fishing Days on the Fox River between the Mouth and
   DePere Dam as Compared to All Wisconsin Waters of Green Bay in
   1998, for Mail Survey Respondents .................................................. 4-6
4-4 Perceived Average Time to Catch a Fish in Green Bay ......................... 4-8
4-5 Typical Expenditures on Green Bay Fishing Days ................................ 4-10
4-6 Angler Rating of Importance of Actions in Terms of How the Actions Would
   Enhance Recreational Fishing on the Waters of Green Bay .................... 4-12
4-7 Statements about Catch Rates .......................................................... 4-13
4-8 Statements about Boat Launch Fees in Relation to Catch Rates and PCB
   Contamination ................................................................................. 4-13
4-9 How Bothered Anglers Would Be by Different Levels of FCAs for the Fish They
   Target in Green Bay ....................................................................... 4-15
4-13 Respondent Perception of Current FCAs on Green Bay ...................... 4-16
4-14 Behavioral Changes in Response to FCAs for Green Bay .................... 4-17

5-1 Average Time to Catch a Fish in Green Bay ........................................ 5-10
5-2 Perceived Average Time to Catch a Fish in Green Bay ......................... 5-10
5-3 Green Bay FCA Levels for an Average Size Fish .................................. 5-12
5-4 1998 Wisconsin FCAs for Green Bay and Fox River for Selected Species 5-13
5-5 Pearson Correlation Coefficients between Green Bay Characteristics across
   the Choice Pairs ............................................................................. 5-15
5-6 Importance of Green Bay Characteristics to Choice Pair Decisions ......... 5-16
5-7  Mean Importance of Green Bay Characteristics to Choice Pair Decisions by Target .......................................................... 5-17
5-8  Mean Importance of Green Bay Characteristics to Choice Pair Decisions by Avidity in 1998 .......................................................... 5-18
5-9  Mean Characteristics Levels for the Preferred Alternatives by Whether the Characteristics Were Important to Choice .......................... 5-19
5-10 Mean Characteristics Levels for the Preferred Alternatives by Target Species ........................................... 5-20
5-11 Comparison of Expected Days to Visit Preferred Green Bay Alternative to Reported Days ................................................... 5-23
5-12 Mean Characteristics Levels for the Preferred Alternatives by Whether Respondent Expects to Spend Fewer, the Same as, or More than Current Days .... 5-24

8-1  WTP per Green Bay Fishing Day and per Fishing Day ................................................. 8-4
8-2  Comparison of Wisconsin and Michigan Counties near Green Bay ..................... 8-9

9-1  Comparison of Mean WTP Estimates across Models ............................................. 9-2

10-1 Total Values for Recreational Fishing Service Losses for the Waters of Green Bay Resulting from Fish Consumption Advisories for PCBs ..................................... 10-2
10-2 Key Omissions and Biases in the Estimated Values for Recreational Fishing Losses ...................................................... 10-11
