AUDIENCE CRITIQUES OF WATER REPORT PRESENTATIONS

Please take out a piece of paper and make the following table headings and subheadings

<table>
<thead>
<tr>
<th>Speaker's Name</th>
<th>Rating</th>
<th>DONE WELL</th>
<th>DONE WELL</th>
<th>COULD BE BETTER</th>
<th>COULD BE BETTER</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1 (lo) to 10 (hi)</td>
<td>Content comment</td>
<td>Delivery comment</td>
<td>Content comment</td>
<td>Delivery comment</td>
</tr>
</tbody>
</table>

Give each speaker a rating from 1-10 (10 high) and write down 4 specific comments. Two of the comments should be for topics that the speaker did well and two others for topics which they could have done better. Each of these sets of comments should include an observation about the science "content" of the talk and an observation about the "delivery" of the speaker (see above subheadings). The following table provides a few ideas of the many "content" and "delivery" topics to consider while reviewing your fellow classmates' presentations.

**CONTENT (PRESENTATION)**

- Knowledge of facts and subject? Good? Fair? Poor?
- Science topics discussed well?
- Science topics discussed poorly?
- Well organized?
- Good Introduction? (name, hometown, etc.?)
- Cover all main questions?
  - Municipal or private well?
  - Surface water or groundwater?
  - Physical description of water source?
  - Pollution or depletion threats?
  - Price?
- Which questions did they cover well?
- Which questions did they cover poorly?
- Visual aids? Good maps? Poster?
- Conclusions?
- Easy to understand? Informative?
- Enough details? Too many details?
- Length of presentation. Too short? Too long?

**DELIVERY (PRESENTER)**

- Enthusiasm level?
- Speak clearly? Loud enough? Too monotone?
- Speed? Spoke too fast? Too slow? Just right?
- Speaking to entire audience? Eye contact?
- Reads from paper too much?/looks down?
- Says "umm" too much?
- Body language? Slouching? Good arm movements?
- Good at interacting with audience?
- Good at generating questions from audience?
- Good at answering questions?
- Uses too much jargon?

Please listen to entire talk before consulting this sheet!
