Environmental Studies Internship Interest Form

This form is intended to help you assess your current interests and skills, identify experience or skills that you would like to develop in an Internship, and as preparation for an interview with the Internship Host organization. Be sure you read all of the Internship information on the ENVS Web site. To receive credit for an Internship, these steps must be followed:

1. Find an internship.
2. Complete the Internship Agreement form together with the Internship Host; both of you must sign the Agreement form.
3. Meet with the ENVS Internship Faculty Sponsor to review and approve the Agreement.
4. The Internship for credit, ENVS 3930, is a controlled enrollment course. After meeting with the Faculty Sponsor for approval of the Agreement, you will be registered for 1–3 credit hours. Be sure to check your schedule to be sure you are enrolled for credit.

Semester you would like the internship:  Fall  Spring  Summer

Name: ___________________________________________ Student number: ______________________

Local address: __________________________________________________________________________

Local phone: __________________________ E-mail address: ________________________________
