Welcome. I am Prof. Jeffrey S. Zax. This is Economics 2020, Principles of Macroeconomics.

Course description:

The purpose of this course is to acquire an introductory understanding of macroeconomics. Macroeconomics is the study of the structure and performance of the entire economy. We examine the determinants of long-run trends in the size of the economy and of short-run fluctuations in economic activity. As part of this examination, we explore the causes and consequences of inflation and unemployment. Throughout, the effects of government policy on macroeconomic behavior are a prominent concern.

This course requires previous completion of Economics 2010, Principles of Microeconomics, or its equivalent. Anyone uncertain with regard to their preparation should consult with me immediately.

This course will meet on Tuesdays and Thursdays from 9:30 a.m. until 10:45 a.m. throughout the semester in Math 100. I will hold regular office hours between 2:00 p.m. and 4:00 p.m. on Tuesdays and between 2:00 p.m. and 3:00 p.m. on Thursdays in Economics 111, my office. Appointments may be made for meetings at other times, if these are inconvenient. Course information will be posted regularly on Desire2Learn. Notifications will be posted there as well, and occasionally sent via campus email. It is your responsibility to monitor both.

Performance in this course will be judged on the basis of five types of instruments. The final examination will take place on Wednesday, 7 May, from 4:30 p.m. until 7:00 p.m. It will require the full 2.5 hours and be worth 150 points. Any student who has three or more final examinations scheduled on 7 May has the right to reschedule all exams following the first two. Any student wishing to invoke this right must do so by 26 February.\footnote{University policies regarding multiple final examinations on the same day are available at \url{http://www.colorado.edu/policies/final_exam.html}.}
One midterm examination will take 70 minutes and be worth 70 points. It will take place on 11 March unless class progress deviates significantly from expectations. Examinations will ordinarily consist of multiple choice questions addressing the material in lectures and readings. They may also include short essays.

Graded clicker questions will take place in lecture, without prior announcement, throughout the semester. For this reason, i>clickers are required. They must be registered as described at http://oit.colorado.edu/node/779. These questions will contribute 80 points to the final grade.

Graded questions will take place in ten recitations, given by the schedule below. These questions will be analyzed collectively, with the guidance of the teaching assistant, during the recitation. Answers will be due at the end of the recitation period. These questions will contribute 80 points to the final grade.

Homework assignments will be due in each week except for the first two weeks and the last week of the semester. Each of the twelve homework assignments will be worth 10 points, for a total of 120 points. These assignments will require the use of Aplia. Instructions on accessing Aplia are available in the course Desire2Learn website.

Excuses for the course requirements will be granted only under extraordinary circumstances and with appropriate documentation. If granted, the excused points will be reallocated to subsequent requirements. The course as a whole is valued at 500 points. The score attained by each student, evaluated relative to those of other students and to the score which would be attained by an intelligent student of economics at this level, will determine final letter grades.

Computers are permitted in lectures. However, they must be used only for course-related purposes. Uses for any other purpose impose negative externalities on others and are inappropriate during class time. For these reasons, anyone who uses computers for non-course-related purposes must leave the lecture hall.

The material to be mastered in this class is contained in the lectures and assigned readings. All currently assigned readings are in Principles of Macroeconomics, 6th edition by N. Gregory Mankiw. The textbook and access to Aplia may be purchased at the campus bookstore. They are also available for this course at http://www.cengagebrain.com/micro/1-1OSPAB7.

Additional readings may be added to the syllabus as appropriate. The tentative schedule of topics below also includes the current list of assigned readings.
**Tentative schedule:**

Week of 24 February  Recitation, preparation for midterm examination
25 February  Lecture, Chapter 15 “Unemployment”
27 February  Lecture, Chapter 15 “Unemployment”
28 February  Homework, Chapter 15
Week of 3 March  Recitation, preparation for midterm examination
4 March  Lecture, Chapter 16 “The monetary system”
6 March  Lecture, Chapter 16 “The monetary system”
7 March  Homework, Chapter 16
Week of 10 March  Recitation, 8-point exercise
11 March  Midterm examination
13 March  Lecture, Chapter 17 “Money growth and inflation”
14 March  Homework, Chapters 16 and 17
Week of 17 March  Recitation, 8-point exercise
18 March  Lecture, Chapter 17 “Money growth and inflation”
20 March  Lecture, Chapter 18 “Open economy macroeconomics: Basic concepts”
21 March  Homework, Chapters 17 and 18
Week of 31 March  Recitation, 8-point exercise
1 April  Lecture, Chapter 18 “Open economy macroeconomics: Basic concepts”
3 April  Lecture, Chapter 19 “A macroeconomic theory of the open economy”
4 April  Homework, Chapters 18 and 19
Week of 7 April  Recitation, 8-point exercise
8 April  Lecture, Chapter 19 “A macroeconomic theory of the open economy”
10 April  Lecture, Chapter 20 “Aggregate demand and aggregate supply”

11 April  Homework, Chapters 19 and 20

Week of 14 April  Recitation, 8-point exercise

15 April  Lecture, Chapter 20 “Aggregate demand and aggregate supply”

17 April  Lecture, Chapter 21 “The influence of monetary and fiscal policy on aggregate demand”

18 April  Homework, Chapters 20 and 21

Week of 21 April  Recitation, preparation for final examination

22 April  Lecture, Chapter 21 “The influence of monetary and fiscal policy on aggregate demand”

24 April  Lecture, Chapter 22 “The short-run trade-off between inflation and unemployment”

25 April  Homework, Chapters 21 and 22

Week of 28 April  Recitation, preparation for final examination

29 April  Lecture, Chapter 22 “The short-run trade-off between inflation and unemployment”

1 May  Lecture, Chapter 23 “Five debates over macroeconomic policy”

7 May  Final examination 4:30p.m.-7:00p.m.

University policies:

The University adheres to the standards for student privacy rights and requirements as stipulated in the Federal Rights and Privacy Act (FERPA) of 1974.² Campus policy regarding disabilities requires that faculty adhere to the recommendations of Disability Services. In addition, campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly accommodate all students who, because of religious obligations, have conflicts with scheduled examinations, assignments or required attendance. Any student eligible for and needing academic adjustments or accommodations because of disability or religious practice

² A summary is available at [http://registrar.colorado.edu/regulations/ferpa_guide.html](http://registrar.colorado.edu/regulations/ferpa_guide.html).
should arrange to meet with me immediately. Those with disabilities should immediately submit a letter from Disability Services describing appropriate adjustments or accommodations.  

Students and faculty share responsibility for maintaining an appropriate learning environment. All are subject to the University’s polices on Sexual Harassment and Amorous Relationships. Students who fail to adhere to appropriate behavioral standards may be subject to discipline. Faculty have the professional responsibility to treat students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which students express opinions. I am happy to discuss any issues of individual or group treatment in office hours or by appointment.

All students of the University of Colorado at Boulder are responsible for knowing and adhering to this institution’s policy regarding academic integrity. Cheating, plagiarism, fabrication, lying, bribery, threatening behavior and assistance to acts of academic dishonesty are examples of behaviors that violate this policy. Ordinarily, a student engaged in any act of academic dishonest will receive a failing grade for the course. In addition, all incidents of academic misconduct shall be reported to the Honor Code Council. Depending on its findings, students who are found to be in violation of the academic integrity policy will be subject to non-academic sanctions, including but not limited to university probation, suspension, or expulsion.
