Welcome. I am Prof. Jeffrey S. Zax. This is Economics 4626, *The Economics of Inequality and Discrimination*.

**Course description:**

The purpose of this course is to investigate the extent of inequality, its causes and its consequences. This investigation occurs at both the macroeconomic and microeconomic level. At the macroeconomic level, we discuss the relationship between inequality and growth, and the effects of different national institutions on this relationship. At the microeconomic level, we discuss inequality in multiple dimensions. We analyze the individual choices from which and economic contexts in which it arises. We complete this discussion with an examination of discrimination: inequality which arises when disadvantages are imposed through coercive denial of market opportunities.

This course requires previous completion of Economics 3070, *Intermediate Microeconomic Theory*, or its equivalent. This prerequisite will be enforced. In addition, previous completion of Economics 3080, *Intermediate Macroeconomic Theory*, or its equivalent, is helpful. Anyone uncertain with regard to their preparation should consult with me immediately.

This course will meet on Mondays, Wednesdays and Fridays from 11:00 a.m. until 11:50 a.m. throughout the semester in Education 231. I will hold regular office hours between 2:00 p.m. and 4:00 p.m. on Mondays and between 2:00p.m. and 3:00p.m. on Wednesdays in Economics 111, my office. Appointments may be made for meetings at other times, if these are inconvenient.

Performance in this course will be judged on the basis of five instruments. The final examination will take place on Tuesday, 16 December, from 10:30a.m. until 1:00p.m. It will require the full 2.5 hours and be worth 150 points. Any student who has three or more final examinations scheduled on 16 December has the right to reschedule all exams following the first two. Any student wishing to invoke this right should do so prior to the Fall Break. However, given the
early hour of the final examination in this course, it is unlikely that anyone is eligible to reschedule this examination.\footnote{University policies regarding multiple final examinations on the same day are available at http://www.colorado.edu/policies/final_exam.html.}

Two midterm examinations will each take 40 minutes, and be worth 40 points. They will take place on 26 September and 5 November unless class progress deviates significantly from expectations. Examinations will ordinarily consist of short essay questions addressing the material in lectures and readings. They may also include short computational exercises.

Two papers complete the course requirements. Each will analyze the issues presented in a case from the Harvard Business School, based on discussions in class and the material in readings. The cases will be available at the UMC Book Store. Both papers must be type-written, double-spaced, with conventional margins. Papers that exceed the maximum lengths, either in physical length or because of compressed format, will be penalized. These papers should be submitted electronically to the email address above in the Adobe .pdf format. The computers in the computer lab in the basement of the Economics Building can create .pdf files from Word files. Make sure that you arrange to convert your papers to .pdf format before the deadline for submission. Speak with me if you have difficulty with this requirement.

The first term paper is a three-page discussion of Inequality and Globalization, Harvard Business School Case No. 9-705-040. It will be due on 10 October unless class progress deviates significantly from expectations. It will be worth 20 points. The second paper is a five-page discussion of Chile: The Conundrum of Inequality, Harvard Business School Case No. 9-907-411. It will be due on 21 November unless class progress deviates significantly from expectations. It will be worth 50 points.

Excuses for the five course requirements will be granted only under extraordinary circumstances. If granted, the excused points will be reallocated to subsequent requirements. The course as a whole is valued at 300 points. The score attained by each student, evaluated relative to those of other students and to the score which would be attained by an intelligent student of economics at this level, will determine final letter grades.

The material to be mastered in this class is contained in the lectures and assigned readings. The tentative schedule of topics below also includes the list of assigned readings. All articles in the Journal of Economic Perspectives are available as .pdf files through the University Library’s website. From any University computer, follow this protocol:

1. Access the Library website at http://ucblibraries.colorado.edu/.
2. Click on “Chinook Library Catalog”.
3. Click on “Find Journals/Serials”.
4. Enter “journal of economic perspectives” in the “for” field.
5. Click on “Search for full-text in Business source complete”.

-2-
6. Locate the desired article.

This source contains all articles in this journal through the spring edition of 2008, despite the indication at step 5 that its holdings end at July 24, 2006. The remaining article, that assigned for lecture 5, may be obtained from the webpage for this lecture on the course website: http://www.colorado.edu/Economics/Zax/Econ4626/fall08/webpages/econ4626.html. Additional readings may be assigned at my discretion.

17 September 9. Intertemporal inequality

19 September 10. Inter-country inequality

III. The Microeconomics of Distribution

22 September 11 Investments in human capital: Schooling

24 September 12. Investments in human capital: Training and experience

26 September First midterm examination

29 September 13. The value of life

1 October 14. Intragenerational mobility

3 October 15. The inheritance of economic status

6 October 16. Intergenerational mobility and redistributive policy

8 October 17. Inequality and local externalities

10 October 18. Peer effects

Essay on Inequality and Globalization, Harvard Business School Case No. 9-705-040 is due.

13 October 19. Inequality as an incentive

15 October 20. Wealth inequality

17 October 21. Health inequality

20 October 22. Income and earnings inequality

22 October 23. Wage inequality

24 October 24. Equivalence scales
27 October 25. Consumption inequality

29 October 26. Poverty

31 October 27. Children’s welfare

3 November 28. Satisfaction

5 November Midterm examination

IV. Evaluating inequality

7 November 29. Preferences for redistribution

10 November 30. Feasible redistribution

12 November 31. Social welfare functions and societal choice

V. Discrimination and anti-discrimination policies

14 November 32. The economics of identity
17 November 33. Race and ethnicity

19 November 34. The discriminatory instinct

21 November 35. Models of discrimination in labor markets

Essay on Chile: The Conundrum of Inequality, Harvard Business School Case No. 9-907-411, is due.

1 December 36. Measuring labor market discrimination

3 December 37. Affirmative action

5 December 38. Slavery and child labor

8 December 39. Housing segregation

10 December 40. Treating the symptoms: Busing, Fair Housing and environmental racism

12 December 41. Discrimination in automobile and other markets
The University adheres to the standards for student privacy rights and requirements as stipulated in the Federal Rights and Privacy Act (FERPA) of 1974.² Campus policy regarding disabilities requires that faculty adhere to the recommendations of Disability Services. In addition, campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly accommodate all students who, because of religious obligations, have conflicts with scheduled examinations, assignments or required attendance. Any student eligible for and needing academic adjustments or accommodations because of disability or religious practice should arrange to meet with me immediately. Those with disabilities should immediately submit a letter from Disability Services describing appropriate adjustments or accommodations.³

Students and faculty share responsibility for maintaining an appropriate learning environment. All are subject to the University’s policies on Sexual Harassment and Amorous Relationships.⁴ Students who fail to adhere to appropriate behavioral standards may be subject to discipline. Faculty have the professional responsibility to treat students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which students express opinions.⁵ I am happy to discuss any issues of individual or group treatment in office hours or by appointment.

All students of the University of Colorado at Boulder are responsible for knowing and adhering to this institution’s policy regarding academic integrity. Cheating, plagiarism, assistance to acts

---
