Summer Salary Guidelines for Boulder Campus
Spring 2024

1. Purpose
The purpose of these guidelines is to provide the information necessary to understand and apply the summer salary rules for academic year (AY) faculty.

2. Overview
For academic year appointed faculty, campus guidelines allow for the maximum of an additional 3/9ths of that person’s Institutional Base Salary (IBS) to be earned for summer work during the summer months including summer teaching, scholarly and creative work pay in any proportion, administrative appointments, etc. Federal regulations state that the allowable rate of pay for summer research effort is based on the IBS and the maximum that can be earned from federally funded awards in any one month, including the academic year, should not exceed 1/9th of the IBS. For the majority of faculty, their summer research salary will be calculated from an IBS composed only of their academic year appointment base salary. However, when the faculty member has an administrative and/or endowed appointment, their summer research salary will be only a portion of their total IBS salary.

The IBS for CU Boulder includes faculty academic year base salary and any academic year compensation earned from separate and distinct administrative appointments and/or endowed professor or endowed chair appointments. The IBS does not include overload teaching, continuing education appointments, monetary awards, compensation earned for services performed external to the University, administrative salary paid during the summer months, and endowed professor or endowed chair stipends paid during the summer months.

These summer salary campus guidelines and Federal rules apply to AY faculty but do not apply to faculty paid on a fiscal year 12-month appointment or to other CU Boulder employment classifications, including but not limited to, full-time University Officers, Research Faculty positions, and non-tenure track teaching positions.

A. Compensation earned during the summer months from the following activities is subject to the 3/9ths salary limit:
   - Compensation for summer teaching including Maymester, Augmester, and Continuing Education
   - Summer research compensation
   - Administrative compensation such as department chairs, associate chairs, faculty directors, etc. (see Section 1.D. below for a list of job codes affected by this)
   - Endowed Professorships and Endowed Chairs
   - All compensation not specifically stated above that requires expending effort on the part of the faculty member for university related duties

B. The following summer compensation is exempt from the 3/9ths salary limit:
   - LEAP or other training sessions that include a payment for attendance
   - Faculty Teaching Excellence Program (FTEP) summer payments
   - Compensation earned from entities not associated with the University for consulting services performed during the summer months
   - Endowed Fellowships
   - Salary earned for AY work

---

1 It is important to note that not all granting agencies allow the entire 3/9ths to be charged to the grant.
C. Summer Teaching and Research Job Codes

Please note that use of the new Summer Teaching and Research job codes is for permanent active AY faculty receiving summer research and/or teaching compensation. More information on these job codes can be found in the Summer Job Codes Guidance document located on the Summer Resources section of the Academic Resources web page.

HCM workflow requires final approval from Faculty Affairs on faculty appointments. Summer appointments should be entered as soon as possible to allow sufficient time for payroll transactions to be reviewed by the appropriate Dean’s Office personnel before the ePAR approval moves to Faculty Affairs.

- 1100SR: Distinguished Professors – Summer Research or other
- 1101SR: Professor – Summer Research or other
- 1102SR: Associate Professor – Summer Research or other
- 1103SR: Assistant Professor – Summer Research or other
- *1104SR: Senior Instructor – Summer Research or other
- *1105SR: Instructor – Summer Research or other
- 1449SR: Artist in Residence – Summer Research or other
- 1442SR: Scholar in Residence – Summer Research or other
- 1100ST: Distinguished Professor – Summer Teaching
- 1101ST: Professor – Summer Teaching
- 1102ST: Associate Professor – Summer Teaching
- 1103ST: Assistant Professor – Summer Teaching
- *1104ST: Senior Instructor – Summer Teaching
- *1105ST: Instructor – Summer Teaching
- 1449ST: Artist in Residence – Summer Teaching
- 1442ST: Scholar in Residence – Summer Teaching

*Please note: Teaching Professor track job codes are not available to use for summer 2024; please use the Instructor job codes as noted above.

D. Administrative job codes

- 1428: Assoc Dean-Faculty
- 1429: Asst Dean-Faculty
- 1433: Director-Faculty
- 1434: Assoc Director-Faculty
- 1435: Chair
- 1436: Assoc Chair
- 1446: Director-Institute
- 1450: Endowed or Named Professor
- 1451: Endowed Chair

3. Calculating Summer Pay

The summer salary guidelines and examples outlined in this section describe the technical aspects of applying the 3/9ths rule to ensure compliance with federal and University policies, and that the faculty member earns the maximum allowable summer salary. These guidelines are applicable to all units on campus that have academic year appointed faculty who teach or conduct summer research, and they must be consistently applied throughout the campus. Non-compliance places the University in jeopardy and could result in audit findings.

Planning

Summer semester months (May-August) span two different fiscal years. The 3/9th total is calculated from salary earned within one calendar year, which bridges two fiscal years, with possible merit increases.
effective in January¹. Please use the 39ths Summer Calculator and Request Form (2024 edition) found at https://www.colorado.edu/academicaffairs/academic-resources to help plan and calculate the appropriate summer salary.

Note that for faculty involved solely with summer teaching, the Summer Salary Request Form is not required. Faculty who are engaged in summer teaching plus research or research only are required to use the Summer Salary Request Form to furnish detailed information regarding their intended summer salary. ALL appointments from ALL campuses must be included to allow the department chair/faculty director to determine that the 3/9ths limits are not exceeded.

**Example A: IBS for Faculty with AY Administrative Position**
Professor X’s academic year salary is $72,000. They teach one overload class in the fall for $5,000 and are the Associate Chair of their department, which pays 2.5% of their academic year salary or $1,800 ($72,000 x 2.5%) for a 9-month AY appointment. The total IBS for the academic year is $73,800 (which includes a January merit increase); compensation earned for the overload appointment is not included in the IBS. The maximum they can earn during the summer months is $24,600 ($72,000 + $1,800 / 9 = $8,200 x 3), but only $24,000 of that amount can be earned from research activities (See Section III.B. of the Institutional Base Salary Policy for details). NOTE: While the Associate Chair salary is not paid in the summer, other activities could potentially generate earnings to the full 3/9ths of the IBS.

<table>

<td>$0</td>
<td>$0</td>
<td>n/a</td>
</tr>
</tbody>
</table>

**Example B: Faculty with AY Administrative Position doing Summer Teaching and Research**
In a different summer, Professor X has the same earnings as in Example A and also earns $4,000 for teaching a Term B summer session class and an additional $4,000 for teaching a Maymester class, or a total of $8,000 for summer teaching. Since the 3/9ths of IBS limit for Professor X is $24,600, they can be paid an additional $16,600 ($24,600 - $4,000 - $4,000 = $16,600) from their grant to earn the full IBS because they have not exceeded the maximum $24,000 limit that can be charged for research work.

Faculty members serving as chair or faculty director earn 1/12th of the approved administrative salary each

¹ Beginning in calendar year 2025, the 3/9ths limit is calculated within a single calendar year. Prior to 2025, the 3/9ths limit was calculated within a single fiscal year, which spanned two calendar years. The change was made to decrease the complexity of calculations with the change in merit increases for faculty to January of each year.
month they serve in these capacities. The entire administrative salary cannot be paid out during the 9-month academic year period as doing so violates a State Fiscal rule that prohibits salary from being paid before it is earned. Therefore, summer salary for those faculty with 12-month administrative appointments will be charged to the administrative pay source and the remainder, up to the maximum 1/9th or 3/9th IBS amount, can be charged to research and/or teaching pay sources.

**Example C: Faculty with 12 Month Administrative Position**
Professor Y's academic year salary is $108,000. They are the Chair of their department, a 12-month administrative position, which pays 21% of their academic year salary or $22,680 ($108,000 x 21%). The total IBS for the academic year is $125,010 ($108,000 + ($22,680 x 75%) and includes a January merit increase. The maximum they can earn during the summer months is $41,670 ($108,000 / 9 + $17,010 / 9 = $13,890 x 3). The monthly compensation earned for the chair stipend during the summer ($1,890) is part of the 3/9ths of IBS summer salary limit so the maximum monthly available for charging to sponsored projects is $12,000 ($13,890 - $1,890) per month.

**Begin and End Dates for Calculating the 3/9ths IBS Total**
The 3/9ths limit is based on compensation earned in one calendar year (see the diagram below). Summer compensation earned mid-May through mid-August must be within the 3/9ths salary limit with no more than 1/9th earned in June and July (see exception below for teaching in section “Salary Rates for Summer Teaching”).
This guidance document refers to the 3/9ths period as May, June, July and August within a single calendar year. The exact begin and end dates of the August summer session and the dates of the May summer sessions vary slightly based on the actual begin and end dates of any given academic year which are found in the Registrar's Academic Calendar.

**Rate of Pay**

Beginning in fiscal year 2022, per Board of Regent Policy, Policy 11B: Faculty Salary 2.C.(3), the Board of Regents approved a change in the merit review cycle such that increases to academic year salaries are reviewed in the fall and effective the first day of the calendar year. Therefore, the 3/9ths limit is calculated based on the institutional base salary rate in effect as of January of the calendar year. See FAQ 4 below for additional information.

**Salary Rates for Summer Teaching**

The salary rates for summer teaching are set by the school/college based on faculty rank. In some situations, 1/9 of a junior faculty member’s salary may be less than the summer rate. To limit the salary to 1/9 for these faculty members would prohibit the opportunity to teach in the summer session. In this situation, the 1/9th rule would not apply, as long as the faculty member is not doing any research during the month they are teaching the course. However, the 3/9ths of IBS limit still applies.

**Example D: Waiver for Faculty Who Only Teach in Summer**

Professor Z’s academic year salary, which is the same as their IBS, is $60,000. Their 3/9ths IBS limit is $20,000 and their 1/9th limit is $6,667. During the month of July 20xx, they want to teach a summer course where the posted salary is $7,000; Term B in summer 20xx runs from 7/2/xx to 7/31/xx. Even though the salary exceeds their 1/9th, they can earn the entire $7,000 as long as they are not paid for...
research during the month of July. However, they will need to reduce the amounts they can earn in August 20xx and June 20xy to stay in compliance with the 3/9ths of IBS rule.

Example E: Not Eligible for Waiver
Professor Y’s academic year salary, the same as their IBS, is $97,000. Their 3/9ths IBS limit is $32,333 and their 1/9th limit is $10,778. They would like to teach two summer courses in July 20xx (Term B), which pay $9,700 per course; they have no plans to conduct research during the summer. Earning $19,400 in a month exceeds the 1/9th limit so they would be in violation of the rules if they are allowed to teach the two courses, even though the compensation is derived solely from teaching. They do not qualify for the exception because the compensation for teaching one summer course is less than their 1/9th limit. In other words, they cannot exceed the 1/9th limit because 1/9th of their academic year salary ($10,778) is not less than what they can earn teaching in the summer session course ($9,700). If a faculty member has a unique, limited and exceptional circumstances that may merit a waiver of this 1/9th limit, such as when there is a strong curricular need for the teaching of a specific summer course, a written waiver may be requested from the Provost.

4. Frequently Asked Questions

Q 1: My faculty member is teaching a class in Term B that pays $4,000. They plan to supplement their salary with research grant funds. The class begins in mid-July and ends in mid-August. How can I determine how much salary is earned in each month to determine how much they can earn from their grant and also ensure they are in compliance with the 1/9th rule?

A 1: Please refer to the 3-9ths Summer Calculator and Request Form on the Academic Affairs Academic Resources webpage, https://www.colorado.edu/academicaffairs/academic-resources

Q 2: My faculty member wants to pay themself an entire 1/9th from their research grant in August. Since summer session ends and the fall semester begins during that month, can I pay them for the entire month?

A 2: No, you will need to prorate their 1/9th salary based on the August summer dates. Please refer to the 3/9ths Summer Calculator and Request Form on the Academic Affairs Academic Resources webpage, https://www.colorado.edu/academicaffairs/academic-resources, to determine the appropriate limit.

Q 3: What if I have questions or run into issues with the IBS tool in HCM?

A 3: Please contact the HR Service Center to help with transactional assistance at HRSC@colorado.edu; you may be referred to others regarding policy questions.

Q 5: Can a faculty member receive summer salary for work done on a sponsored project during the academic year?

A 5: No, a faculty member cannot receive summer salary for work done on a sponsored project during the academic year. Summer salary from sponsored programs must be for actual work performed on the sponsored program from which the funds are paid and must be paid for personal services performed during the period stipulated. In accordance with federal and University policy, “the salary and wage distribution must reflect how the employee actually spent his/her time and effort as reflected and certified on the ePER.” (Campus Controller’s Office ePERs — Policy and Procedure). This means that a faculty member cannot be paid in the summer for work done on a sponsored project during the previous 9-month academic year. In submitting summer effort reports, faculty members are certifying that the work was done in the summer as reported.
