

ROBERT A. MARSHALL

Assistant Professor
Department of Aerospace Engineering Sciences
University of Colorado Boulder
robert.marshall@colorado.edu

RESEARCH INTERESTS

My research focuses on improving our understanding of the **geospace environment**, defined as the region of the near-Earth space environment influenced by gravity and the Earth's magnetic field. My research topics have a common theme of **electromagnetic wave interactions with naturally-occurring plasmas** in the geospace environment. I study the physics of lightning and thunderstorms, and their effects on the geospace environment, through ionospheric heating, precipitation of radiation belt electrons, and energy transport through gravity and acoustic waves. I study meteors, the plasma surrounding a meteoroid as it enters the Earth's atmosphere, using radar and optical techniques to understand the meteoroid environment around Earth. I study the propagation of Very-Low-Frequency radio waves in the waveguide formed by the Earth and the lower ionosphere, through the ionosphere, and throughout the magnetosphere, together with the interaction between these waves and radiation belt particles.

I approach these and other research topics through a combination of **instrument development and data collection, data analysis, and modeling**. I develop optical, radio, and particle instruments for ground-based and space-based measurements. I analyze the data from these and other space-based instruments using advanced analytical tools, including machine learning and Kalman filtering. I utilize a range of numerical modeling techniques, including Finite Difference, Finite Element, and Monte Carlo techniques.

PROFESSIONAL EXPERIENCE

- Aug 2015 – present: **Assistant Professor**, Aerospace Engineering Sciences, CU Boulder
- May 2015 – Aug 2015: **Visiting Assistant Professor**, Aerospace Engineering Sciences, CU Boulder
- May 2013 – July 2015: **Research Associate**, Aeronautics and Astronautics, Stanford University
- May 2011 – Apr 2013: **Research Associate**, Electrical Engineering, Stanford University
- Oct 2009 – May 2011: **Research Scientist**, Center for Space Physics, Boston University
- June 2009 – Oct 2009: **Postdoctoral Scholar**, Electrical Engineering, Stanford University
- Jan 2003 – May 2009: **Research Assistant**, Electrical Engineering, Stanford University

EDUCATION

- **Ph.D., Electrical Engineering**, Stanford University, June 2009
Dissertation Advisor: Umrans S. Inan
Dissertation Title: VLF Radio Signatures of Transient Luminous Events Above Thunderstorms
- **M.S., Electrical Engineering**, Stanford University, 2004
- **B.S., Electrical Engineering**, University of Southern California, 2002, *Summa Cum Laude*

PROFESSIONAL SERVICE ACTIVITIES

- Meeting Organizer: 2015 Stanford Meteor Environment and Effects (SMEE) Workshop, Stanford, CA, July 14-16, 2015
- Meeting Session Organizer for 2015, 2016, and 2017 CEDAR Workshops

- CEDAR student poster judge: 2013–2016 Annual Workshops
- Meeting Session Organizer for 2009, 2016, 2017, and 2018 URSI National Radio Science Meeting
- AGU student poster judge: 2012–2016 Fall Meetings, Atmospheric and Space Electricity Focus Group
- NASA Review Panelist, 2014, 2015, and 2016
- NSF Review Panelist, 2016
- Numerous proposal reviews for NSF, NASA and international agencies
- Journal reviews: Journal of Geophysical Research (Atmospheres and Space Physics); Geophysical Research Letters; Journal of Physics D; Journal of Atmospheric and Solar Terrestrial Physics; Earth Moon and Planets; Icarus; Annales Geophysicae.

AWARDS AND HONORS

- 2017 JGR-Space Physics Editor’s Citation for Excellence in Refereeing
- 2011 International Radio Science Union (URSI) Young Scientist Award
- 2011 Winner, Andor Insight Awards, Scientific Imaging Competition (Physical Sciences)
- 2010 National Science Foundation CEDAR/GEM Postdoctoral Fellowship
- 2008 American Geophysical Union (AGU) Outstanding Student Paper Award
- 2007 Gerald J. Lieberman Fellowship, awarded at Stanford for “demonstrated potential for leadership roles in the academic community”
- First Place, URSI Student Paper Competition; Ottawa, ON, Canada
- 2004 AGU Outstanding Student Paper Award
- 2002–2005 Texas Instruments Stanford Graduate Fellowship
- 1998–2002 International Academic Scholarship, University of Southern California

TEACHING

- ASEN 5440, *Mission Design and Development for Space Sciences*, Fall 2017
- ASEN 5018/6028, *Graduate Projects I & II*, project advisor, AY 2017 – 2018
- ASEN 3300, *Aerospace Electronics and Communications*, Spring 2017 & 2018
- ASEN 4018/4028, *Senior Design Projects I & II*, team advisor, AY 2015–2016 and 2016–2017
- ASEN 5519, *Space Mission Concept Development*, Fall 2015
- EE 256, *Numerical Electromagnetics* (Stanford University), Summer 2008
- Teaching assistant, *Numerical Electromagnetics*, Prof. Umran Inan (Stanford University); 2005, 2007
- Teaching assistant, *Analog Circuits*, Prof. John Choma and Dr. Edward Maby (University of Southern California); 2001, 2002.

PUBLICATIONS AND PRESENTATIONS

Publication statistics from [Google Scholar citations index](#), as of June 2018:

Peer-reviewed Publications	55
Total Citations	1222
h-index	20
i10-index	31

h-index is the largest number h such that h publications have at least h citations.

i10-index is the number of publications with at least 10 citations.

1. U. S. Inan and R. A. Marshall (2011), *Numerical Electromagnetics: The FDTD Method*, Cambridge University Press: <http://www.cambridge.org/gb/knowledge/isbn/item5760378/>
2. Marshall, R. A. and C. Cully (2018), Atmospheric effects and signatures of high energy electron precipitation. In *The Dynamic Loss of Earth's Radiation Belts: From Loss in the Magnetosphere to Particle Precipitation in the Atmosphere*, Elsevier; in press.
3. Kaeppler, S. R., E. Sanchez, R. H. Varney, R. Irvin, R. A. Marshall, J. Bortnik, A. S. Reimer, and P. Reyes (2018), Incoherent Scatter Radar Observations of 10-100 keV Precipitation: Review and Outlook. In *The Dynamic Loss of Earth's Radiation Belts: From Loss in the Magnetosphere to Particle Precipitation in the Atmosphere*, Elsevier; in press.

PEER-REVIEWED JOURNAL ARTICLES*

* Papers first-authored by graduate students, for whom Dr. Marshall serves or served as the student's primary research supervisor, are highlighted with **bold**.

59. Xu, W., R. A. Marshall, A. Kero, E. Turunen, D. Drob, J. Sojka, and D. Rice (2018), VLF Measurements and Modeling of the D-region Response to the 2017 Total Solar Eclipse, *Geophys. Res. Lett.*, submitted.
58. Xu, W. and R. A. Marshall (2018), Towards Better Understanding of Bremsstrahlung X-rays during Energetic Electron Precipitation, *Geophys. Res. Lett.*, submitted.
57. **Antunes de Sá, A.**, and R. A. Marshall (2018), Lightning Distance Estimation Using LF Lightning Radio Signals Via Machine-Learned Models, *IEEE Transactions on Geoscience and Remote Sensing*, submitted.
56. Eccles, J., J. Sojka, D. Rice, R. Marshall, D. Drob, and J. Mojica-Decena (2018), Modeling the D Region and VLF Propagation for the Solar Eclipse of 21 August 2017, *Geophysical Research Letters*, in review.
55. Cohen, M. B., N. C. Gross, M. A. Higginson-Rollins, R. A. Marshall, M. Golkowski, W. Liles, et al. (2018), The lower ionospheric VLF/LF response to the 2017 Great American Solar Eclipse observed across the continent, *Geophysical Research Letters*, 45, 3348–3355, doi:10.1002/2018GL077351.
54. Xu, W., R. A. Marshall, X. Fang, E. Turunen, and A. Kero (2018), On the effects of bremsstrahlung radiation during energetic electron precipitation, *Geophysical Research Letters*, 45, 1167–1176, doi:10.1002/2017GL076510.

INVITED SEMINARS AND SYMPOSIA

16. Marshall, R. A. (2018), Atmospheric Signatures and Diagnostics of Radiation Belt Electron Precipitation, *LASP Friends of the Magnetosphere (FOM)*, Boulder, CO, February 2018.
15. Marshall, R. A. (2017), Lightning Effects in the Upper Atmosphere, Ionosphere, and Magnetosphere, *Presented at University of Alabama in Huntsville, Department of Atmospheric Sciences*, Huntsville, AL, October 2017.
14. Marshall, R. A. (2017), Very-Low-Frequency Subionospheric Remote Sensing as a Diagnostic of D-region Ionosphere Variations, *Presented at Utah State University, Department of Physics*, Logan, UT, April 2017.
13. Marshall, R. A. (2016), The Earth's Atmosphere as a Natural Source of X-ray Radiation, *Presented at the University of Western Ontario, Department of Physics and Astronomy*, London, ON, Canada, October 2016.
12. Marshall, R. A. (2016), Atmospheric Signatures of Energetic Particle Precipitation in the Upper Atmosphere, *Presented at the National Center for Atmospheric Research (NCAR), High Altitude Observatory (HAO)*, Boulder, CO, September 2016.
11. Marshall, R. A. (2016), The Earth's Atmosphere as a Natural Source of X-ray Radiation, *Presented at Dartmouth College, Plasma Seminar Series*, Hanover, NH, May 2016.
10. Marshall, R. A. (2015), Lightning Effects in Space, *presented at CU Boulder, Department of Aerospace Engineering Sciences*, Boulder, CO, February 2015.
9. Marshall, R. A. (2014), The Artificial Relativistic Electron Beam, *presented at CU Boulder and the Laboratory of Atmospheric and Space Physics (LASP)*, Boulder, CO, April 2014.
8. Marshall, R. A. (2014), Numerical modeling of the lightning EMP and its interaction with the lower ionosphere, *presented at Lawrence Livermore National Laboratory (LLNL)*, Livermore, CA, January 2014.
7. Marshall, R. A. (2011), Interactions between Lightning and the Lower Ionosphere, *presented for SESS Group, Stanford University*, Stanford, CA, November 29, 2011.
6. Marshall, R. A. (2011), High-speed Imaging of Auroral and High-energy Particle Precipitation, *presented at KLA-Tencor*, Milpitas, CA, November 4, 2011.
5. Marshall, R. A. (2010), Optical Signatures of Transmitter- and Lightning-induced Electron Precipitation, *presented for SESS Group, Stanford University*, Stanford, CA, September 22, 2010.
4. Marshall, R. A. (2009), An Introduction to Near-Earth Space Physics, *presented at Bermuda College*, Bermuda, September 30, 2009.
3. Marshall, R. A. (2009), Ionospheric Effects of Intense Lightning Discharges, *presented at Center for Space Physics, Boston University*, Boston, MA, September 9, 2009.
2. Marshall, R. A. (2009), Ionospheric Effects of Intense Lightning Discharges, *presented at Geospace Studies Institute, SRI International*, Menlo Park, CA, March 12, 2009.
1. Marshall, R. A. (2009), Ionospheric Effects of Intense Lightning Discharges, *presented at Institute for Geophysics and Planetary Physics, UCLA*, Los Angeles, CA, Feb 19, 2009.

THESES SUPERVISED

Ph.D, Engineer, and Master's theses by students for whom Dr. Marshall is or was the student's primary research supervisor.

10. Liane Tarnecki, Aerospace Engineering Sciences, CU Boulder, Ph.D expected 2023
9. Carolina Peña, Aerospace Engineering Sciences, CU Boulder, Ph.D expected 2022
8. Alexandra Wold, Aerospace Engineering Sciences, CU Boulder, Ph.D expected 2022
7. Forrest Gasdia, Aerospace Engineering Sciences, CU Boulder, Ph.D expected 2020
6. André Antunes de Sá, Aerospace Engineering Sciences, CU Boulder, Ph.D expected 2020
5. Austin Sousa, Ph.D, Aeronautics and Astronautics, Stanford University, June 2018
4. Jennifer Kampmeier, M.S., Aerospace Engineering Sciences, CU Boulder, May 2018
3. Stephen Jackson, M.S., Aerospace Engineering Sciences, CU Boulder, May 2017
2. Patrick Blaes, Ph.D, Electrical Engineering, Stanford University, May 2015
1. Steven Ingram, Engineer Degree, Electrical Engineering, Stanford University, January 2015

DOCTORAL THESIS COMMITTEE MEMBER

13. Kun Zhang, Aerospace Engineering Sciences, CU Boulder, Ph.D expected Fall 2019
12. Rory Barton-Grimley, Aerospace Engineering Sciences, CU Boulder, Ph.D expected Spring 2019
11. Yining Shi, Aerospace Engineering Sciences, CU Boulder, Ph.D expected Spring 2019
10. Kevin-Druis Merenda, Physics, Colorado School of Mines, Ph.D expected Spring 2019
9. Robinson Wallace, Atmospheric and Ocean Sciences, CU Boulder, Ph.D expected Spring 2019
8. Alex Barrie, Aerospace Engineering Sciences, CU Boulder, Ph.D expected December 2018
7. Saurabh Sanghai, Ph.D, Electrical Engineering, CU Boulder, May 2018
6. Dilini Subasinghe, Ph.D, Physics and Astronomy, University of Western Ontario, December 2017.
5. Derek Houtz, Ph.D, Aerospace Engineering Sciences, CU Boulder, May 2017
4. Evan Thomas, Ph.D, Physics, CU Boulder, May 2017
3. Greg Lucas, Ph.D, Aerospace Engineering Sciences, CU Boulder, May 2017
2. David Garrido López, Ph.D, Electrical Engineering, CU Boulder, December 2016
1. Thomas Rogers, Ph.D, Astrophysics and Planetary Sciences, CU Boulder, July 2016

UNDERGRADUATE RESEARCH ADVISEES

* Discovery Learning Apprenticeship (DLA)

- Connor Myers*, Aerospace Engineering Sciences, Summer 2018 – present
- Elliott Davis, Aerospace Engineering Sciences, Fall 2018 – present
- Matthew Funk*, Aerospace Engineering Sciences, Fall 2017 – Spring 2018
- Catherine Witt*, Electrical and Computer Engineering, Fall 2017 – Spring 2018
- Alec Viets, Aerospace Engineering Sciences, Summer 2017 – Summer 2018
- Leina Hutchinson, Aerospace Engineering Sciences, Summer 2017
- Noah Holland-Moritz*, Engineering Physics, Fall 2016 – Spring 2017
- Joshua (Luke) Tafur, Aerospace Engineering Sciences, Spring 2016

POSTDOCTORAL FELLOWS AND RESEARCH ASSOCIATES

2. Austin Sousa (Ph.D expected, Stanford University), October 2017 – present
1. Wei Xu (Ph.D Pennsylvania State University), January 2016 – present

EXTERNALLY FUNDED RESEARCH PROJECTS AT CU BOULDER

10. Improved Meteoroid Characterization through Laboratory Experiments, Modeling, and Ground-based Observations
Prime Sponsor: NSF Aeronomy
Period of Performance: September 01, 2018 – August 31, 2022
Award Amount: \$645,134
9. VIPER – VLF Trans-Ionospheric Propagation Experiment Rocket
Prime Sponsor: NASA Heliophysics Division; Subaward Sponsor: University of California Berkeley
Period of Performance: June 01, 2018 – May 31, 2021
Award Amount: \$194,833
8. Very Low Frequency Wave and Particle Precipitation Mapper (VPM)
Prime Sponsor: Air Force Research Laboratory
Period of Performance: November 09, 2017 – December 31, 2018
Award Amount: \$103,326
7. Collaborative Research: Energetic Particle Precipitation Mechanisms in the Inner Magnetosphere: Van Allen Probes and Incoherent Scatter Radar Coordinated Measurements
Prime Sponsor: NSF, Magnetospheric Physics
Period of Performance: September 1, 2017 – August 31, 2020
Award Amount: \$120,791
6. Prevalence of Distinct Energetic Intra-Cloud Lightning Events and Their Connection to Terrestrial Gamma Ray Flashes
Prime Sponsor: NASA Earth and Space Science Fellowships (André Antunes de Sá)
Period of Performance: September 1, 2017 – August 31, 2020
Award Amount: \$135,000
5. Quantifying the Contributions of Ionization Sources on the Formation of the D-region Ionosphere During the 2017 Solar Eclipse
Prime Sponsor: NASA Living With a Star
Period of Performance: April 1, 2017 – March 31, 2018
Award Amount: \$49,824
4. Collaborative Research: Investigation of kinematic, microphysical and electrical processes leading to extreme lightning flash rates over Argentina using RELAMPAGO observations
Prime Sponsor: NSF, Physical and Dynamic Meteorology
Period of Performance: September 1, 2017 – August 31, 2021
Award Amount: \$550,643
3. Spatial, Temporal, and Orientation Information in Contested Environments (STOIC)
Prime Sponsor: DARPA; Subaward Sponsor: Leidos Inc.
Period of Performance: October 1, 2015 – January 31, 2019
Award Amount: \$402,645
2. Thunderstorm Coupling to the Lower Ionosphere through Electromagnetic, Acoustic, and Gravity Waves
Prime Sponsor: NSF; Subaward Sponsor: Stanford University
Period of Performance: September 1, 2015 – July 31, 2017
Award Amount: \$131,529

1. Concept Development for Active Magnetospheric, Radiation Belt, and Ionospheric Experiments using In Situ Relativistic Electron Beam Injection
Prime Sponsor: NSF; Subaward Sponsor: SRI International
Period of Performance: September 1, 2015 – August 31, 2017
Award Amount: \$47,290

INTERNALLY FUNDED RESEARCH PROJECTS AT CU BOULDER

3. Magnetic CubeSat Constellation for Advanced Navigational Models
Sponsor: CU Boulder Grand Challenge
Period of Performance: September 1, 2017 – August 31, 2021
Award Amount: \$745,520
2. *ASEN 4519: Space Environment and Effects* (course development)
Sponsor: CU Boulder Space Minor
Start Date: September 1, 2017
Award Amount: \$10,000
1. Integrated Remote and In-Situ Sensing (IRISS): Project Lightning
Sponsor: Research and Innovation Office, CU Boulder
Period of Performance: January 1 – December 31, 2016
Award Amount: \$69,446
