Installing Xerox Atalink C8270 Printer Driver for Mac

- 1. Go to https://www.support.xerox.com/en-us/product/altalink-c8200-series/downloads? language=en
- 2. Select "macOS Print and Scan Driver Installer"
- 3. Click "Accept" to accept the license agreement and download
- 4. Run the .dmg file that was downloaded from the Xerox website
- 5. Select the default options to install the drivers until you get to the "Select a Printer" prompt
- 6. Under "Discovered Printers:" select the Gutenburg with an IP address of 128.138.249.156 and then click "Continue"

a. If the printer is not showing up under Discovered Printers, click on "Don't see your Printer?" input 128.138.249.156 into the field and click SNMP

Open a 64bit application such as Chrome, Firefox, or Word and then go to File > Print And Click on "Print using the system dialog...

7. Scroll down until you see "Printer Options" click on that and then click on Xerox Features. Click on the  $(\hat{)}$

12. Name the printer something that you will remember and click OK. In my example, I've named it gutenbrg 2.0.

13. Whenever you print, be sure that the preset you've just saved is selected along with the Gutenburg Printer selection.

## **Troubleshooting Tips:**

## In Step 7:

1. If you do not see Xerox features go into system settings and find the Printer and Scanners tab:

## 2. Select Gutenburg and then select options and supplies

	Printers &	Scanners
