

Applied Mathematics Research Training Summary

Instructions: Please fill out this form with a core APPM faculty member you have received research mentorship from and submit this via the survey in your PhD Annual Progress Report **no later than April 15th of your 2nd year**. Your signature and that of your chosen faculty member indicate approval of your Research Training Summary.

Your signature:

APPM faculty member's signature:

Discuss at least one research topic of interest you've come across during your second year. Describe how you have engaged with this topic (e.g., reading journal articles, starting on a project, attending group meetings or seminars, one-on-one meetings with faculty members or members of their group).

Please name your current advisor OR 2-3 faculty you've talked to about potentially working with.

Indicate how you will use your fully funded summer period to advance your research.

Use this space to describe what, if any, progress you've made on publishable or presentable work or research that could go into a presentation.

List any presentation you've given or papers that you have submitted.
