JAMES DONALD MEISS

Address Department of Applied Mathematics
University of Colorado
526 UCB
Boulder, CO 80309-0526

Telephone (303) 492-3731
(303) 492-4066 (FAX)

Email jdm@colorado.edu

Education

B.S. Physics	Montana State University (first two years) University of Washington (final year)	June 1975
M.A. Physics	University of California at Berkeley	June 1977
Ph.D. Physics	University of California at Berkeley	June 1980

Employment History

Research Fellow	Institute for Fusion Studies University of Texas at Austin	1980-1982
Research Associate	Institute for Fusion Studies University of Texas at Austin	1982-1984
Research Scientist	Institute for Fusion Studies University of Texas at Austin	1984-1989
Associate Professor	Program in Applied Mathematics University of Colorado at Boulder	1989-1992
Full Professor	Dept. of Applied Mathematics University of Colorado at Boulder	1992-Present

Honors

Member, Institute for Theoretical Physics, UC Santa Barbara	1985
Fellow of the American Physical Society	November 1990
Research Professor, Mathematical Sciences Research Institute, UC Berkeley	2007

National Committees

Program Director, SIAM Dynamical Systems Activity Group 1993-1995
Organized the May 1995 Snowbird Meeting (480 people)

Visiting Positions

Postdoctoral Fellow	Woods Hole Oceanographic Inst. Geophysical Fluid Dynamics	June-September 1980
Visiting Professor	Department of Applied Mathematics Queen Mary College, Univ. of London	March-September 1983
Visiting Scientist	Institute for Theoretical Physics University of California, Santa Barbara	January-March 1985
Visiting Scientist	Department of Applied Mathematics Queen Mary College, Univ. of London	June-September 1986
Visiting Professor	Mathematics Institute University of Warwick, Coventry	February-April 1987
Research Scientist	Lawrence Berkeley Laboratory University of California at Berkeley	January-July 1989
Visiting Professor	University of London Centre for Nonlinear Dynamics	September-December 1993
Visiting Professor	Loughborough University Department of Mathematics	October 2000
Visiting Scientist	Newton Institute Cambridge University	November 2000
Research in Pairs	Oberwolfach Institute Collaborative Research	June 2004

Visiting Professor	University of Queensland < ICE-EM Australian Graduate School >	July 2005
Research Professor	Mathematical Sciences Research Inst. University of California at Berkeley	Jan-May 2007
Visiting Professor	Department of Mathematics University of Sydney	July-Aug 2009

PUBLICATIONS

0. Thesis

J.D. Meiss, “Statistical Dynamics of Weakly Nonlinear Internal Waves,” University of California at Berkeley, June 1980 (University Microfilms, Ann Arbor), 117pp.

I. Published Books

- 1) R.S. MacKay and J.D. Meiss (Eds.) Hamiltonian Dynamical Systems: a reprint selection, (1987), Adam-Hilgar Press, 784pp., ISBN 0-85274-205-3.
- 2) R.D. Hazeltine and J.D. Meiss, Plasma Confinement, (1991), Addison Wesley, 394 pp., ISBN 0201-53353-5.
- 3) R.D. Hazeltine and J.D. Meiss, Plasma Confinement, (2003) 2nd Edition, Dover Press, 480 pp., ISBN 0486432424.
- 4) J.D. Meiss, Differential Dynamical Systems, (2007) SIAM, Philadelphia 412 pp., ISBN 978-0-899816-35-1.

II. Published Journal Articles
