STEPHEN WADE

2014 FINK LECTURE

For one night only 2013 Grammy nominee **Stephen Wade** will explore through live music-making, projected images, and spoken narrative the stories behind *The Beautiful Music All Around Us: Field Recordings and the American Experience*. Wade's award winning book explores thirteen iconic folksong performances captured on Library of Congress field recordings between 1934 and 1942. In this compellingly narrated, multimedia, musical performance, Wade threads the music with its largely unknown yet surprisingly influential creators.

A book signing follows the performance.
