Nolan Petrich

Cell: (267) 408 – 0880 | **Email:** nolan.petrich@colorado.edu | **LinkedIn:** linkedin.com/in/nolanpetrich

EDUCATION

University of Colorado Boulder — **Boulder, CO**
Doctor of Philosophy in Chemical Engineering — *In Progress*

Vanderbilt University — **Nashville, TN**

University of Delaware — **Newark, DE**
Bachelor of Science in Chemical Engineering (Honors with Distinction) — *May 2022*

AWARDS AND HONORS

National Science Foundation Graduate Research Fellowship — *September 2025*
University of Colorado Boulder Dean's Graduate Fellowship — *August 2024*
Vanderbilt University Russell G. Hamilton Scholar University Graduate Fellowship — *August 2022*
AIChE 2nd Place Poster Competition in Materials Engineering and Sciences Division — *November 2021*
University of Delaware General Honors Award — *November 2020*
University of Delaware Dean's List — *Fall 2018-Spring 2019, Spring 2020-Spring 2021, Spring 2022*
Four Year University of Delaware Trustee Scholarship — *August 2018*

RESEARCH EXPERIENCE

University of Delaware — **Newark, DE**
Peptide Synthesis and Instrumentation Specialist, Peptide–Protein Materials Center — *June 2023 – August 2024*

- Optimized the scale-up of multiple peptide sequences while operating CEM Liberty Blue Microwave Peptide Synthesizer, Gyros Protein Technologies PurePep Chorus Peptide Synthesizer, UPLC/XEVO Mass Spectrometer, High Performance Liquid Chromatography Preparative System, and Lyophilizer for synthesis and purification
- Designed and implemented a peptide synthesis request process that determines monetary and time costs
- Restructured and streamlined instrument usage within the Peptide–Protein Materials Center with the initiation of a website and the design of training modules and protocols

University of Delaware — **Newark, DE**
Research Assistant, Christopher Kloxin Lab — *February 2020 – August 2022*

- Assessed coiled-coil peptide stability in various solvent conditions for nanostructure assembly applications
- Examined structural stability of coiled-coil peptides using Circular Dichroism spectrometry

Air Gas — **Plumsteadville, PA**
Engineering Intern — *June 2017 – August 2018*

- Collaborated with PhD level chemical engineers to increase formaldehyde yields and production efficiency, working cross-functionally for design and analysis of a pilot system, resulting in a patented device and process
- Analyzed gas mixtures with FT-IR, FID Gas Chromatograph, and Ion Chromatograph devices to confirm customer requests

PUBLICATIONS

- **Petrich, N.**; Bera, K.; Young, M.; Kirkpatrick, B.; Dempsey, P.; Anseth, K. "Photo-Tunable Materials Reveal Dynamic Role of YAP Mediated Mechanotransduction During Intestinal Crypt Formation." In Preparation.

- **Petrich, N.** "Characterizing Stability Conditions for Coiled-Coil Formation and Design." Senior Thesis, University of Delaware, 2022. UDSPACE.

PATENTS

- Grasmeder, R.; Miller, S.; **Petrich, N.** 2018. *Apparatus for Generating Formaldehyde Monomer Vapor*. U. S. Patent 10,112,165 B1, filed September 20, 2017, and issued January 26, 2018.

- Grasmeder, R.; Miller, S.; **Petrich, N.** 2018. *Method for Generating Formaldehyde Monomer Vapor*. U. S. Patent 10,179,318 B1, filed September 20, 2017, and issued January 26, 2018.

RESEARCH PRESENTATIONS

- *Light-Responsive Hydrogels to Control Intestinal Organoid Morphogenesis*. Photopolymerization Fundamentals Meeting. Sustainability, Energy and Environment Community Building, Boulder, CO, 17. Sep. 2025. **Poster Presentation.**
- *University of Delaware Peptide–Protein Materials Center Capabilities and Future Directions*. CHARM IRG1 Meeting. Ammon Pinizzotto Biopharmaceutical Innovation Center, Newark, DE, 30. Jan. 2024. **Oral Presentation.**
- *Characterizing Stability Conditions for Coiled-Coil Formation and Design*. Senior Thesis Defense. University of Delaware, Newark, DE, 09. May. 2022. **Oral Presentation.**
- *Characterizing Stability Conditions for Coiled-Coil Formation*. AIChE Annual Student Conference. John B. Hynes Veterans Memorial Convention Center, Boston, MA, 08. Nov. 2021. **Poster Presentation.**
- *Characterizing Stability Conditions for Coiled-Coil Formation*. CHARM Summer Symposium. University of Delaware, Newark, DE, 12. Aug. 2021. **Poster Presentation.**
- *Peptide Sequence Database Design*. Summer Scholars Poster Symposium. University of Delaware, Newark, DE, 13. Aug. 2020. **Poster Presentation.**

OUTREACH

University of Delaware **Newark, DE**
HighRise High School Research Experience *August 2024*

- Planned, led, and implemented new research experience program for Black, LatinX, and low-income high school students
- Designed professional development workshops, symposia, and laboratory activities to prepare students for STEM education
- Designed presentation material and student handouts and worksheets to set up continued implementation of the program

LEADERSHIP

University of Delaware **Newark, DE**
American Institute of Chemical Engineers (AIChE) Recruitment Committee Member *August 2020 – May 2022*

- Introduced prospective students to the department through monthly recruitment events
- Completed 30-minute tours to groups of five to increase student interest in the program

University of Delaware **Newark, DE**
Resident Assistant *August 2019 – May 2022*

- Enforced University and Residence Life & Housing rules and regulations, resulting in a safe, orderly, and pleasant living and learning environment for 31 first-year undergraduate students from diverse backgrounds
- Organized and coordinated monthly floor meetings and conducted frequent room check-ins to discuss events, classes, and concerns

University of Delaware **Newark, DE**
Blue Hen Ambassador *December 2018 – May 2022*

- Represented the University of Delaware student body for prospective college students and families
- Communicated with both large and small groups, providing two 90-minute tours each week around campus

SKILLS

- **Software:** Aspen Plus; BioRender; ChemDraw; ChimeraX; Inkscape; Microsoft Office Suite; Origin; SimScale
- **Programming Languages:** R; MATLAB; Simulink
- **Laboratory:** Data Analysis; Cell Culture; Chromatography; Circular Dichroism; Confocal Microscopy; Mass Spectrometry; NMR Spectroscopy; Peptide Synthesis; Polymer Synthesis; SDS PAGE
