

The Planning Committee moves that the Arts and Sciences Faculty Senate vote on the following options for evaluation of promotion cases for teaching and clinical faculty:

- 1) Establish a Teaching/Clinical Faculty Personnel Committee (TCFPC) as a standing committee of the ASFS that would be constituted of experts in teaching and chaired by a Full Teaching Professor
- 2) Establish a TCFPC as a standing committee of the ASFS that would be constituted of experts in teaching and chaired by the Chair of the existing tenure and tenure-track Personnel Committee; an Associate Chair of TCFPC, a Full Teaching Professor, would be appointed to share workload
- 3) Split the existing Personnel Committee into Divisional Personnel Committees that would handle promotions in both the tenure track and teaching/clinical track
- 4) Continue the existing practice of handling promotions within departments
