

Classroom Technology Survey

1. ASSETT Survey: What technology do you like your classes to use?

This survey:

... asks a little about you

... gives a list of technologies a classroom might have. You tell us which you think are important.

Professors want to know what you think!

Each completed survey:

... will take about 10 minutes

... can be entered into a drawing for a \$100 gift certificate from the CU bookstore.

ASSETT is a new program in the College of Arts & Sciences working to support teaching and learning through technology. One of our projects is to improve the use of technology in teaching and learning by finding out what is important to students.

For more information about ASSETT or about this survey, contact Prof. Michele Jackson at jackson@colorado.edu
