2014 Year-end Highlights

Dear Friends,

2014 is quickly coming to a close and we are grateful to have enjoyed many successes this year. Ending the year on a good note, we wanted to share some of ASSETT's highlights and accomplishments.

How did we *innovate*, *experiment*, *connect* and *discover* in 2014?

This year we've funded 16 innovations and changes in 12 departments through ASSETT Development Awards.

We continued our Digital Learning Communities series and successfully facilitated 4 faculty seminars. Throughout this year, 27 participants spend a semester with faculty from across 15 departments, learning about educational technologies and course design to enhance their teaching practices.

ASSETT's Teaching Technology Assistants have gotten our 3D printer back in running order, and have continued their weekly help in five departments around campus.

We hosted our second Annual Teaching with Technology Symposium featuring CU-Boulder Alumni, Jesse Stommel, as the keynote speaker. Over 75 people attended the symposium to learn about emerging educational technologies and innovative teaching ideas.

We hosted an accelerated summer workshop where over 30 A&S faculty learned about Flipped Classroom, Just in Time Teaching, and active learning strategies.

We started offering a full production kit to get you up and running creating your own online

How did we innovate, experiement, connect, and discover in 2014?

ABOUT US

Teaching and Learning Consultants seek to inform, facilitate connections and encourage inspiration in those exploring new way of teaching with technology.

Our Creative Services Web team is comprised of talented experienced web and graphic designers committed to bringing fresh design ideas to your academic web site redesign.

ASSETT's Teaching Technology Assistants are familar and comfortable with technology. Their primary goal is to help people in A&S learn to use and maintain technology in an educational environment, rather than to fix broken technology.

ASSETT Custom Tools and Applications Places, OCR, Syllabus Archive, and SPARC

videos.

ASSETT's homegrown Places application now has an improved user interface, more than 50 campus classrooms/spaces have been added, and is now mobile-friendly.

We hosted websites for 58 A&S academic units. In 2014 alone, we designed and launched 7 websites, and trained staff in 10 departments on website management.

We look forward to connecting with you in 2015. See you next year!
