

16th Annual

Earth System & Space Science Poster Conference

Friday, December 9, 2022

Location: SEEC Auditorium (C120), 4001 Discovery Drive, Boulder

10:30am: Keynote Lecture

Dr. Maria Rugenstein

Assistant Professor – Colorado State University, Department of Atmospheric Sciences
“The pattern effect: Re-defining radiative feedbacks and assessing their relevance for near-term projections”

11:30am – 2:30pm: Poster Session

Best poster awards for graduate and
undergraduate students

This free conference highlights work by students and early-career researchers active in
Earth System & Planetary Science, Space Physics & Engineering

Participation from other CU departments/institutes and other
Front Range organizations is welcomed!

Registration and more information:
