

Be it resolved that:

The faculty of the University of Colorado supports President Saliman and Chancellors Christensen, Elliman, Schwartz, Sobanet, and Interim Chancellor Schmiesing as they navigate the challenges presented by the change in federal administration. We stand ready to assist in any way we can in meeting these challenges. Furthermore, the Faculty Council of the University of Colorado fully supports all members of our community: faculty, staff, and students, and unequivocally rejects and condemns all and any expressions of hate directed at them, whether by politicians, journalists, or anyone else. Consistent with Regent Policy on nondiscrimination, we particularly condemn any attempts to single out and deny the rights, worth, or humanity of individuals based on race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, marital status, political affiliation, or political philosophy. In addition, we support our community unconditionally, without regard to immigration status.

Passed by the Faculty Council at the meeting of January 30th 2025
