

Campus Sustainability Executive Council

Charge, Goals and Structure

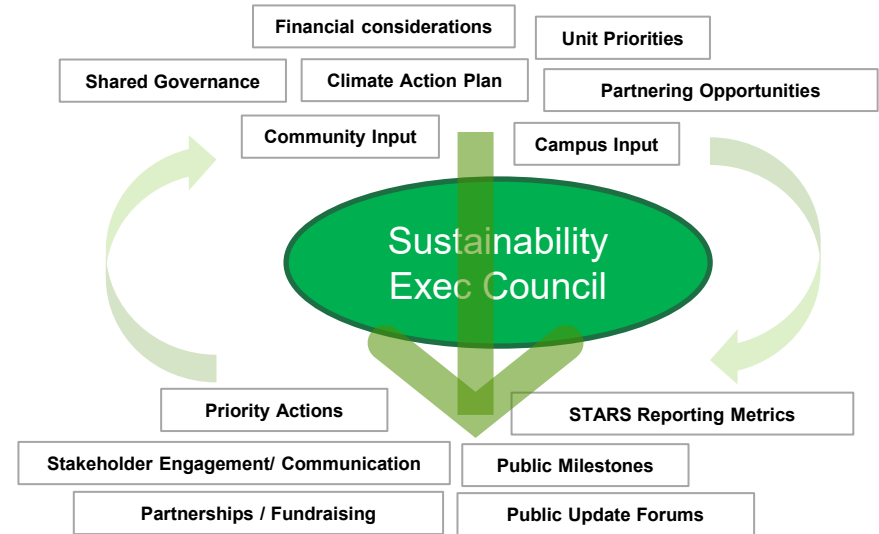

Led by Chief Operating Officer Patrick O'Rourke, the Campus Sustainability Executive Council prioritizes and is accountable for campus sustainability actions, progress and needs related to progress on the Chancellor's 2021 call to climate action and the rollout of the updated CU Boulder Climate Action Plan.

Roles

- **Aligns planning and administration structures and priorities** to STARS reporting metrics, in conjunction with related, overlapping campus-wide priorities.
- **Prioritizes and aligns campus sustainability operations** in support of meeting campus sustainability goals and implementing the CU Boulder climate action plan.
- **Serves as a central point of engagement, communication and input** with internal and external stakeholders to accelerate progress, identify gaps and engender support for campus sustainability actions.
- **Tracks, assesses and assures reporting needs aligned with STARS** by connecting/consulting with campus research/academic partners and campuswide stakeholders.

Goals/deliverables:

- Deliver the campus roadmap/milestones toward carbon neutrality
- Align campus priorities to achieve STARS platinum within 2 reporting cycles
- Convene 2x/year public update forums on campus actions, gaps and needs
- Support fundraising efforts to enable sustained investment in climate action
- ID/prioritize sustainability actions that support related student success, DEI, health and wellness and employee engagement goals
