

ThankYou!

Biochem+Chem

The Dr. Morris Hein Endowed Scholarship supported one student in Chemistry for AY2025-2026.

Dear Dr. Samuel and Mrs. Leslye Prum,

The Chemistry and Biochemistry Departments thank you for support and we are pleased you were able to attend the 2025 Scholarship Appreciation Dinner (and share Dr. Hein's textbooks!).

Your family's generosity supported Brandon Willey and gave him the opportunity to expand his studies, take advantage of extracurricular activities, and enjoy his CU Boulder experience. Plus, it is meaningful to be able to indicate, as a student, that you were meritorious enough to receive special recognition via a scholarship like yours!

We will be sharing, via email, a link to photos you can download of the event.

We will plan to hold the 2026 Scholarship Appreciation Dinner in the fall, likely in October, and hope you will be able to make it again this coming year. If you should have any questions about your scholarship, please feel free to contact Joost via email at joost.degouw@colorado.edu.

Best,

Joost de Gouw
