

BIOMEDICAL ENGINEERING *PRE-MED BIOMECHANICS* CURRICULUM – FALL 2022

1	BMEN 1025 (4) Computer-Aided Design & Fabrication	CHEN 1201 (4) Gen Chem for Engineers (CR: CHEM 1114)	CHEM 1114 (1) Gen Chem 1 Lab (CR: CHEM 1201)		Humanities & Social Science (3) Lower Division	APPM 1350 (4) Calculus 1 For Engineers
2	BMEN 1000 (1) Explore BME Spring Only	CHEM 1133 (4) Gen Chem 2 (PR: CHEM 1201, CHEM 1114)	CHEM 1134 (1) Gen Chem 2 Lab (PR: CHEM 1201, CHEM 1114) (CR: CHEM 1133)	PHYS 1110 (4) General Physics 1 (CR: APPM 1350)	CHEN 1310 (3) Intro to Engineering Computing (CR: Math- see Class Search) (See note on pg.2)	APPM 1360 (4) Calculus 2 For Engineers (PR: APPM 1350)
3	BMEN 2000 (3) Intro to Biomedical Engineering (CR: CHEM 2810) (RPR: CHEM 1310)	CHEN 2810 (3) Biology for Engineers (See note on pg.2)	PHYS 1120 (4) General Physics 2 (PR: PHYS 1110)	PHYS 1140 (1) Experimental Physics (CR: PHYS 1120)	Humanities & Social Science (3) Lower Division	APPM 2350 (4) Calculus 3 For Engineers (PR: APPM 1360)
4	BMEN 2010 (3) Biomaterials (PR: CHEM 1201) Spring Only	CHEM 3311 (4) Organic Chem 1 (PR: CHEM 1133/1134) (CR: CHEM 3321)	CHEM 3321 (1) Organic Chem 1 Lab (PR: CHEM 1133/1134) (CR: CHEM 3311)	MCDB 1161 (2) Phage Genomics Lab I	MCEN 2023 (3) Statics & Structures (PR: APPM 1360, PHYS 1110)	APPM 2360 (4) Linear Algebra & Differential Equations (PR: APPM 1360)
5	BMEN 3010 (3) Biotransport (PR: BMEN 2000, CHEN 1310, PHYS 1110) (CR: APPM 2360) Fall Only	CHEM 3331 (4) Organic Chem 2 (PR: CHEM 3311/3321) (CR: CHEM 3341)	CHEM 3341 (1) Organic Chem 2 Lab (PR: CHEM 3311/3321) (CR: CHEM 3331)	Humanities & Social Science (3) Lower Division	MCEN 2063 (3) Mechanics of Solids (PR: MCEN 2023, APPM 1360)	Engineering Technical Elective (3) Lower Division
6		BCHM 4611 (3) Principles of Biochemistry (PR: CHEM 3311) Spring Only	MCDB 2150 (3) Principles of Genetics (RPR: MCDB 1150)	MCDB 2161 (2) Phage Genomics Lab 2 (PR: MCDB 1161) Spring only	MCEN 4133 (3) Intro to Tissue Biomechanics (PR: BMEN 2010, BMEN 3010) Spring Only	Humanities & Social Science (3) Upper Division
7	BMEN 4010 (3) BME Design 1 (PR: BMEN 1025, BMEN 2010, BMEN 3010) (CR: Writing) Fall Only	BMEN 4117 (3) Anatomy & Physiology for Biomedical Engineering (PR: BMEN 2000) (RPR: BMEN 2010, BMEN 3010)	Engineering Technical Elective (3) Upper Division	Writing Requirement(3)		CHEN 3010 (3) Applied Data Analysis (PR: APPM 2360, CHEN 1310) (See note on pg.2)
8	BMEN 4020 (3) BME Design 2 (PR: BMEN 4010) Spring Only	Engineering Technical Elective (3) Upper Division	Engineering Technical Elective (3) Upper Division	Free Elective (2)	Humanities & Social Science (3) Upper Division	Example COURSE NUMBER (Cr.) Course Name (PR: Pre-Requisites) (CR: Co-Requisites)

Biomedical Engineering Curriculum

Standard Course Substitutions

- **APPM 1350:** MATH 1300
- **APPM 1360:** MATH 2300
- **APPM 2350:** MATH 2400
- **APPM 2360:** MATH 2130 and MATH 3430
- **BMEN 1025:** MCEN 1025, GEEN 3830-800 (fall 2020 only)
- **BMEN 4117:** MCEN 4117, IPHY 3410 and IPHY 3430
- **CHEM 1221:** CHEM 1114, CHEM 1134
- **CHEN 1201:** CHEN 1211 (CHEM 1113 approved for transfer students)
- **CHEN 1203:** CHEN 1211 (CHEM 1133 approved for transfer students)
- **CHEN 1310:** ECEN 1310, CSCI 1300, (CSCI 1320, ASEN 1320 approved for transfer students)
- **CHEN 2810:** MCDB 1150, EBIO 1210 and 1220
- **CHEN 3010:** STAT 4000, MCEN 3047, GEEN 3853
- **ECEN 2250:** ECEN 3010, GEEN 3010
- **MCEN 2023:** CVEN 2121, GEEN 2851
- **MCEN 2063:** CVEN 3161

Technical Electives

Pre-Med Biomechanics requires a total of 12 Technical Elective credits all of which must be BME-Approved Engineering Technical Electives and of which at least 9 must be upper-division. Visit the program's [Advising & Curriculum](#) webpage for options.

Humanities & Social Science Electives/Writing Requirements

Visit the college's [Humanities, Social Sciences, and Writing Requirements](#) webpage for options.

Writing Requirement Options

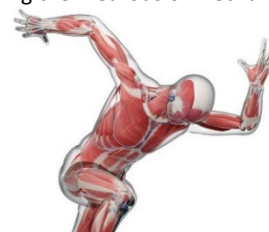

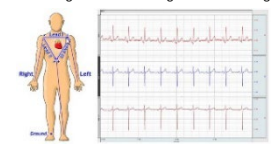

- ENES 1010 (freshmen only), ENES 3100
- WRTG 3030, WRTG 3035
- PHYS 3050
- ENLP 3100 (previous success in an ENLP course highly recommended)

Grade Requirements

The minimum passing grade for a prerequisite or co-requisite course within the biomedical engineering curriculum is a C-. This requirement includes courses completed in another program or department (APPM, PHYS, etc.).

However, if a course taught in another program or department is a co-requisite/pre-requisite for a course in the biomedical curriculum that requires a minimum passing grade of C or higher its co-requisite/prerequisite courses, then this higher requirement applies to biomedical engineering students. The minimum passing grade for standalone classes is a D-. In addition, students need to have a cumulative and major GPA of at least 2.000 in order to graduate from the College of Engineering. **Pass/Fail** is only permitted for BMEN 1000 and Free Elective credits. Effective: Fall 2022

Pre-med Tracks: Biomechanics vs. Bioinstrumentation

Biomechanics Option	Bioinstrumentation Option
<p>Biomechanics is the study of the structure, function and motion of the mechanical aspects of biological systems, at any level from whole organisms to organs, cells and molecules, using the methods of mechanics.</p>  <p>Image Credit: www.verywellfit.com</p>	<p>Bioinstrumentation is an application of biomedical engineering, which focuses on devices used to measure, evaluate and treat biological systems. Examples include biosensors and imaging systems.</p>  <p>Image Credit: www.EnglewoodHealth.org</p>  <p>Image Credit: www.biopac.com</p>
<p>Why pursue Biomechanics?</p>	<p>Why pursue Bioinstrumentation?</p>
<p>Biomechanics draws from the traditional engineering discipline of mechanical engineering. You may wish to take the biomechanics track if you are interested in human motion, performance, disabilities, prosthetics or orthopedics. You may find biomechanics interesting if you want to learn more about the mechanical interaction of surgical tools with tissue, the impact of mechanical stimulation on engineered tissues, or the rapidly developing field of mechanobiology.</p>	<p>Bioinstrumentation draws from the traditional engineering discipline of electrical engineering. You may wish to take the bioinstrumentation track if you are interested in medical devices, such as biosensors and imaging systems, or robotic surgical tools. You may find bioinstrumentation interesting if you want to learn more about the electrical interaction of surgical tools with tissue, methods to image the engineered tissues post-translation, or the rapidly developing field of neurobiology.</p>
