[Health and Wellness Services](#): Explore programs, events and resources related to health and wellness on campus.

PLAN

professionals will help you
develop a path specifically
for you

Make plans - Meet with a counselor to develop a plan especially for you.

[Counseling and Psychiatric Services \(CAPS\)](#): Schedule a screening appointment to meet with a counseling provider. During this appointment, a provider will help you explore options, understand available services and work with you to develop a personalized approach to address your concerns and meet your goals.

[Peer Wellness Coaching](#): Get personalized support setting and reaching your health and wellness goals.

ASK

therapy, counseling, group
sessions, costs, insurance,
limits, specialists, on
campus, community
referrals

Be informed - Take time to ask questions regarding your plan.

Health and Wellness Services providers can help you navigate insurance plans and coverage. Asking questions can help you make the best decision about your care. What are the costs? How often will you meet with your provider? What if you need additional assistance or support? Ask questions and stay informed.

ACT

commit to your mental
health and well being

Be strong - Act faithful on your plan.

These resources are here to help you navigate your needs and goals.

Commit, Attend, Follow-up, Practice, Reconnect.
