

SAMPLE Four Year Plan

BS in Business Administration: Finance (Accelerated Option)

Catalog Year 2023-2024

The Accelerated Finance option is designed for high-achieving finance students, including those with a strong interest in the competitive investment banking and investment management industries. With more importance placed on securing an internship with firms the summer before senior year, e.g., a process that begins roughly 12-15 in advance of an investment banking internship, it's important for students to develop their knowledge of finance early to be competitive. Through the Accelerated Finance option, students will adopt a rigorous first- and second-year curriculum that affords them early access to critical business and finance courses to help increase their qualifications for sought-after finance internships.
