Hey everyone, my name is Ryan Cook. I am currently a junior at Leeds pursuing a Dual-Emphasis in Finance and Real Estate. Additionally, I have added minors in Economics and Leadership Studies. I am a now-former member of the Leeds Honors program... whoops. I grew up in Park City, Utah as an avid skier and with that, I try and get out to the mountains whenever I can. This year I started working part-time as a Baseball Coach for a local baseball team. I, along with a few other Leeds students coach a group of competitive 13 year-olds. Throughout my years at CU I have been involved in the Boulder Freeride Club and Leeds Investment Group. During my freshman year, which got cut short, I lived in Will Vil North as a member of the pre-business program. I look forward to meeting you all and good luck with everything.

Breakfast is my favorite meal of the day and pasta (especially spicy pasta) is my favorite food. My worst fear is moths, but I love horses.

Ashley Shepardson

As an out-of-state student, I know firsthand how nerve-wracking it can be to come to a new school. But I wanted to challenge myself, so I joined Kappa Kappa Gamma sorority and became the financial director. I also joined Women and Business to broaden my horizons. Having gone through the experience of moving to a new place and adjusting to college life, I understand the challenges that students can face. That's why I'm passionate about helping other students. I've done well in school and have learned how to navigate the academic landscape. Whenever I'm on campus, I feel like I'm back in high school again because I know the majority of people there and in my classes. My area of emphasis is currently Operations Management, and I'm considering switching my minor to Accounting. During my freshman year, I lived in Will Vill and had an awesome time. I want to be a part of this mentorship program because I feel like I've gained valuable knowledge about campus life, the different classes in Leeds, and the social scene. I could be a huge asset to nervous freshmen by sharing my experience and helping them feel more comfortable on campus. I've learned the ins and outs of student life here, and I know all the cool spots around campus. I'm now so comfortable with the faculty and students that I feel confident reaching out for help whenever I need it. I want to pass on my knowledge and enthusiasm to other students, so they can see how many resources are available to help them succeed at Leeds.
