## SAMPLE Four Year Plan

### BS in Business Administration: Finance (Accelerated Option)

**Catalog Year 2022-2023**

The Accelerated Finance option is designed for high-achieving finance students, including those with a strong interest in the competitive investment banking and investment management industries. With more importance placed on securing an internship with firms the summer before senior year, e.g., a process that begins roughly 12-15 in advance of an investment banking internship, it’s important for students to develop their knowledge of finance early to be competitive. Through the Accelerated Finance option, students will adopt a rigorous first- and second-year curriculum that affords them early access to critical business and finance courses to help increase their qualifications for sought-after finance internships.

The curriculum in the Leeds School of Business is structured such that students move through business classes in a prescribed order. Prerequisites are strictly enforced. This is an example plan for completing a business degree in eight semesters. **Students are not limited to this plan; it is meant to be used as a guide for planning purposes.**
