DATA: Data was pulled from UT Dallas for including all 24 journals from 2015-2018 for the World rankings on January 21st, 2019. The UTD "Score" in column E comes from the UTD Website. UTD counts number of papers those in top journals. For each paper UTD divides up credit among the authors. So if a paper has two authors, each school the author list as their affiliation will get .5 added to their UTD Score. In column H, Score / Number of faculty simply divides the UTD Score in column E by the number of faculty in column G. Please see the tab "Faculty Count" for the counts of faculty for each school. Faculty counts are from schools' websites and were pulled in Spring of 2018. If a school has fewer faculty now than reference period, it "helps" the school's per capita ranking because faculty who left contribute papers for numerator UTD Score but not denominator. If a school has more faculty now than reference period, it "hurts" the school's per capita ranking because new faculty's papers are not in the school's UTD score but are in the denominator.

Excluded Department include: Law, Economics, Statistics, Healthcare Management, International Business and others please see "Faculty Count" tab and the notes for each individual school."

1	Per Capita UTD Rank	Rank	University	Articles	Score	Country	Number Faculty	Score / Number of Faculty
