

Admission to the MBA and MS Programs is competitive. The admission committee conducts a holistic review of each application in order to select the most talented and diverse incoming class. Admission decisions are based on an evaluation of a number of criteria including, but not limited to, academic competitiveness (undergraduate GPA and coursework completed, test scores, undergraduate institution, etc.), professional work experience, essays, letters of recommendation, interviews, and program fit.

2018-2019 Application Deadlines

Applications are accepted after August 1, 2018. Candidates are encouraged to apply early for best admission and scholarship consideration. International applicants should apply by Round 3 to allow sufficient time for the visa process. The MS Accounting and MS Taxation Programs provide specific deadlines for international students.
