

MBA Class of 2019 Placement

The Leeds MBA Career Management team prepared the following career statistics in accordance with MBA CSEA reporting guidelines for the graduating class of 2019. Career advisors work closely with MBA students beginning at orientation and throughout their two years in the program. In addition to the required Professional Development core class, career advisors provide individual coaching to help students develop personalized internship and post-grad placement plans. Career Management also hosts career fairs, information sessions, networking events, and on-campus interviews.
