

DATA: Data was pulled from UT Dallas for including: Journal of Finance, Journal of Financial Economics, The Review of Financial Studies from 2015-2018 for the World rankings as of January of 2019. Faculty counts were pulled Spring of 2018. The UTD "Score" in column E comes from the UTD Website. UTD counts number of papers those in top journals. For each paper UTD divides up credit among the authors. So if a paper has two authors, each school the author list as their affiliation will get .5 added to their UTD Score. In column H, Score / Number of faculty simply divides the UTD Score in column E by the number of faculty in column G. Please see the tab "Faculty Count" for the counts of faculty for each school. Faculty counts are from schools' websites and were pulled in Spring of 2018. If a school has fewer faculty now than reference period, it "helps" the school's per capita ranking because faculty who left contribute papers for numerator UTD Score but not denominator. If a school has more faculty now than reference period, it "hurts" the school's per capita ranking because new faculty's papers are not in the school's UTD score but are in the denominator. papers for numerator UTD Score but not denominator. If a school has more faculty now than reference period, it "hurts" the school's per capita ranking because new faculty's papers are not in the school's UTD score but are in the denominator.

Economic faculty were excluded from faculty counts. Rank 93 National University of Singapore (NUS Business School) was excluded as we were unable to obtain a faculty count from website.
