Strategy & Entrepreneurship

The Strategy and Entrepreneurship PhD program gives students an opportunity to work with renowned scholars in state-of-the-art research on firm strategy, innovation and entrepreneurship. Faculty and PhD students draw upon multiple disciplinary perspectives to explore issues of Competitive Strategy:

- **Competitive strategy**: how firms gain and sustain a performance advantage
- **Corporate strategy**: what is the scope of the firm and how do they make decisions on acquisitions, alliances and internalization
- **Innovation**: how firms acquire, develop and renew knowledge assets to survive and grow in dynamic markets
- **Entrepreneurship**: how individuals recognize and exploit opportunities by developing new organizations such as startups, spinouts or social ventures

Operations Management

The Operations Management PhD program prepares you to pursue an academic career as a researcher and educator. Faculty research interests range from quantitative modeling to empirical studies using tools from operations research, mathematical programming, artificial intelligence, econometrics and economics. Topics include pricing and revenue management, supply chain management, logistics, healthcare and so on.

The smaller size of the program affords each student extensive interaction with faculty members. It also allows the program to be tailored to each student’s interests.
Distinguish your education
Leeds School of Business stands on the cutting-edge of business education, positively transforming the future of business by inspiring and educating the next generation of leaders. Consistently ranked among the top business schools in the country, Leeds delivers an innovative, experiential curriculum taught by internationally renowned faculty.

What we look for
The PhD program prepares students to be researchers and teachers at major universities. Hence, applicants are evaluated on their potential to become leading scholars.

Applicants must be intellectually curious and highly motivated by academic inquiry, with strong research and communications skills.

Admissions decisions are based on test scores, previous academic performance, work experience, letters of recommendation, research interests and activities that demonstrate tenacity and scholarly potential.

Program Director
Dr. Janet Bercovitz
janet.bercovitz@colorado.edu

Janet Bercovitz is a professor of strategy and entrepreneurship. She previously taught at the College of Business at the University of Illinois at Urbana-Champaign and the Fuqua School of Business at Duke University.

Professor Bercovitz’s research program consists of two main streams: (1) academic entrepreneurship and university-industry technology transfer and organizational structure and (2) inter-organizational contractual relationships. She’s been published in Organization Science, Strategic Management Journal, Management Science, Research Policy and the Journal of Technology Transfer.
