

Civil Design Consultants, Inc.

Civil and Environmental Engineers

3001 South Lincoln Avenue, Suite E-2
Steamboat Springs, Colorado 80487
(970) 879-3022

Job Title: Civil Engineer, Project Engineer or Project Manager

Location: Steamboat Springs, CO

On-site preferred. Remote work arrangements may be considered.

Who We Are

Civil Design Consultants, Inc. (CDC) is a small civil engineering consulting firm located in Steamboat Springs, Colorado. We've been serving local mountain community for over 35 years delivering quality engineering services to private and public clients.

Job Overview

We are seeking a qualified civil engineer to join our firm with interest/experience/expertise in some or all of the following areas: water and sewer infrastructure (wells, pipelines, pump stations, tanks, and treatment facilities), road, trails, grading and drainage, subdivisions, hydrologic and hydraulic modeling, and master planning. Project work will encompass all phases from conceptual planning and funding assistance, design, regulatory approvals, bidding, construction, operational assistance services, and modeling and analysis.

Team Culture

At CDC, we value collaboration, integrity, and creative problem solving. Our close-knit team dynamic provides varied opportunities with support for meaningful contributions, and both personal and professional growth in a flexible office environment.

Responsibilities

- Perform technical design calculations.
- Prepare drawings and specifications to meet the needs of a given project, adhering to applicable regulatory requirements and design criteria with the support/collaboration of a project design team.
- Plan, organize, and manage multiple projects in various phases simultaneously.
- Prepare and review design reports
- Lead or assist in public and client meetings.

Qualifications

- Bachelor's degree in Engineering from an ABET-accredited institution.
- Minimum of 4 years of relevant experience.
- Professional Engineer (PE) licensure in Colorado or the ability to obtain it within one year.
- Strong written and verbal communication skills, including technical writing.
- Proficiency in MS Office, AutoDesk Civil 3D, and hydraulic modeling software.
- Valid driver's license and capability to operate motorized vehicles.

Preferences

- Degree in Civil, Environmental, or Construction Engineering.
- Project management experience.
- Prior experience in an engineering consulting role.

What Else You Need to Know

This position offers potential for professional growth within the firm, with compensation based on experience. Our goal is to provide a diverse spectrum of opportunities, allow you to focus on the types of work you enjoy, and support your continuing professional growth and development. We are looking to hire one or more qualified applicants which have project engineering or project manager level experience, and various specialties (roads/grading/drainage, and/or water/sewer/treatment). Our office is located close to the Steamboat Base Area and on the bus line, with easy access to the slopes.

Commitment to Diversity, Inclusion, and Equal Opportunity

CDC is committed to fostering a diverse and inclusive workplace. We encourage applications from all qualified individuals, including those from underrepresented backgrounds, and value the perspectives that a diverse team brings. We are an equal opportunity employer and do not discriminate against any employee or applicant based on race, color, religion, sex, national origin, age, disability, or veteran status.

How to Apply

To apply, please send a detailed resume (preferably in PDF format) with references and a cover letter to Mary Andre at mandre@cdcinc.biz.
