

DO YOU EXERCISE WHILE USING CANNABIS?

**Participate in our study about how cannabis affects
the experience of exercise!**

You may be eligible if:

- 21-40 years old (men) or 21-50 years (women)
- Have experience using cannabis concurrently with jogging or running
- Physically active
- A Boulder area resident

This study involves:

- 3 appointments in our Boulder lab facility
- 1 maximal exercise test
- 2 treadmill exercise sessions (one after you use cannabis)
- Confidential questionnaires and assessments
- 2 blood draws

**If you are interested, please contact the CU CHANGE research lab at:
603-970-1822 or**

runnershigh.CUstudy@gmail.com

You can earn up to \$100 for your participation!
