

THE COLORADO ROBOTICS CHALLENGE

About the challenge

Are you interested in building a rover? Do you want to learn new skills and apply them to a hands on design?

The Colorado Robotics Challenge, is part of the Colorado Space Grant Consortium. Create an autonomous robot that can traverse across obstacles and test it on a Mars like terrain at the Great Sand Dunes National Park.

Join COSGC

- Apply and learn coding, 3D printing, electrical, and design skills.
- Learn to make a rover.
- Network with industry partners.
