PSYCHOLOGY 3303 – ABNORMAL PSYCHOLOGY Professor June Gruber Spring 2018

Thank you for taking a moment to complete this voluntary survey about your experiences in PSYC 3303. This survey is designed to learn more about your experience with the outreach project and course. The results from this survey may be used by the instructor to improve his/her teaching, and by administrators for tenure and promotion decisions. The instructor should not be present at any time during administration of this survey. These survey results will not be read until after the semester is complete.

Section I: OUTREACH PROJECT

Please use	e the following so	ale to answer the qu	uestions:		
1	2	3	4	5	6
Not at all					Very much

1. How successful do you think the OUTREACH PROJECT was in achieving the following:

 Increasing engagement in course material
 Increasing excitement about the course material
 Increasing learning of course material
 Bridging the gap between the student and scientist/teacher by disseminating
information outside of the classroom

2. How effective do you think the following parts of the OUTREACH PROJECT were in enhancing your learning experience?

Background proposal (literature review, writing)

4. To what extent did you feel the following were true of your OUTREACH PROJECT:

_____ Successful at disseminating your outreach project

_____ You leaned from other students present their flash talks

You would recommend this project as a valuable learning experience

_____ Connecting personally with scientists behind discoveries in the field

5. How much effort did you put into each of the following parts of your OUTREACH PROJECT:

_____ Background proposal (literature review, writing)

_____ Creating project (e.g., brochure, website)

_____ Disseminating project

_____ Flash talk

Section II: COURSE

Please use	the following sc	ale to answer the qu	uestions:		
1	2	3	4	5	6
Not at all					Very much

1. General Course Questions:

How would you rate PSYC 3303 overall?

How would you rate Professor Gruber overall?

2. How successful do you think PSYC 3303 achieved the following learning goals:

 Enhance conceptual understanding of the scientific principles & discoveries
 Exposure to state-of-the-art scientific methods
 Enhance appreciation of, and curiosity about, unanswered questions
 Deepen critical thinking skills about how to read, think about, and
critique the scientific literature
 Deepen critical thinking skills by answering questions about lectures /readings

3. In this course I was encouraged to...

_____ Reflect on what I was learning or how I was learning ______ Evaluate arguments, evidence, assumptions, and conclusions about key concepts (critical thinking)

4. In this course, the instructor...

_____ Maintained an environment that was respectful of diverse students and diverse points of view

_____ Seemed personally invested in student success

Provided content and materials that were helpful

5. In this course, I was...

Challenged to develop my own knowledge, comprehension, and conceptual understanding

Provided opportunities to ask questions and initiate discussion

_____ Provided feedback on my work that helped me improve my performance

Encouraged to connect learning in this class to learning in other classes or to my life experiences

_____ Given projects, tests, or assignments that required original or creative thinking

6. Other

_____What is your anticipated course grade? _____What is your anticipated outreach project grade?

Any additional comments about the course or Dr. Gruber?
