(Short, specific, and original documents that illustrate and provide evidence that you have accomplished what you discussed in the narrative):

Illustrate your philosophy of teaching and learning and assessment techniques with the following appendices:

 - A syllabus, course plan or description for a course you have taught.
 - Original assignment, example of student work and/or classroom technology.
 - Samples of one-minute papers, midterm feedback questions on the class; an abstract of a Scholarship of Teaching and Learning (SoTL) or Teaching as Research (TAR) project if you have done one; sample assignments, quizzes, tests, grading rubrics or models; copies of test or assignment with your feedback to student (to be used only with written permission from student).
 - A syllabus, short course description with potential assessments, materials, learning outcomes, and activities or course plan you would like to teach in the future.
 - Peer or faculty observation notes, video consultation notes (from your CTL Lead Fellow), and/or summaries of students' midterm feedback. For evaluation of your teaching include student evaluations (FCQs) (quantitative data summarized into a chart and written notes from one whole class typed up as an example), faculty evaluations of your teaching, or unsolicited student feedback.
