

Student Consent Form
Sharing Course Work for PSYC 3303; Dr. June Gruber

I will select several students whose work will be copied and included in an archive of student work that I keep for this course. That archive is important to my continued reflection on how well students are learning in my courses. There are also additional ways that I may use a small portion of the archive of student work. First, I might use students' work as a point of comment for other students who are preparing for examinations. I may discuss in class, or post various questions and answers on a web site such as D2L, and invite students to comment on how well the answers address the questions. Second, I maintain a course portfolio in which I write about the quality of student performance that is generated in the course. These examples are a very important piece of my work that I show to other professors to indicate how much and how deeply students are learning. Once the course portfolio is completed, it may also be made available to a wider audience on a public web site generated through the University of Colorado Boulder, with the aim to communicate with other professors about teaching and learning in higher education.

This form requests your consent to have your work included in discussions of understanding for other students and in any versions of my writing about teaching in a portfolio. There is only a small chance your work would be included in my archive, but I ask all students for their permission should that be the case. Note that you have the choice to have your work be anonymous or have your name be part of the work.

Please check the following designated purposes (if any) to which you give your consent:

_____ I am willing to have copies of my coursework available for other students to learn from.

_____ I am willing to have copies of my coursework included in my professor's course portfolio.

_____ I am willing to have copies of my coursework included on the public web site.

Please check one of the following:

_____ I wish to have my name remain on any work that is used.

_____ I wish to have my name remain on work used, only if that work is cited as a particularly good example

_____ I wish to have my name removed on any work that is used.

Additional restrictions on the use of my texts (please specify):

By signing below, you give your permission that work you produce for this course may be used with the restrictions and for the purposes you indicated above. You understand that your grade is *NOT* connected in any way to your participation in this project. Your anonymity will be maintained unless you designate otherwise. Finally, you understand that you are *free to withdraw consent at any time, now or in the future, without being penalized.*
