Welcome to the Department of Chemical and Biological Engineering

Welcome to the Department of Chemical and Biological Engineering (ChBE) at CU Boulder. We are looking forward to helping you have a fulfilling and rewarding time while studying Chemical and Biological Engineering here!

The Department offers two undergraduate degree programs, a Bachelor of Science (BS) in Chemical Engineering (CHEN) and a Bachelor of Science in Chemical and Biological Engineering (CBEN). Both degrees provide excellent training in traditional chemical engineering fields, with the CBEN degree offering additional targeted training in biological engineering.

Academic Advising Information

Academic advising is the process in which you and your advisor work together to set goals for your academic, professional, and personal life. It is a collaborative process and ultimately you are responsible for your educational experience. Higher education has the potential to change your life for the better if you set goals and strive to achieve them. As you pursue your degree, you have the power to make changes that will set the course for a lifetime of learning. Our hope is that we can help you set those goals and encourage you to pursue and reach them. You will be in charge of reaching those goals, and we will help in whatever way possible.

Your Responsibilities

You should

- Check your colorado.edu email regularly. This is the only email your advisor will use. Furthermore, most of your classes will send course-related email to your colorado.edu email.
- Keep a record of your academic progress and goals.
- Be familiar with the course sequencing in your program.
- Bring a list of courses you intend on taking for the upcoming semester to your advising meetings.
- Arrive on time for your advising appointments.
- Reschedule your appointment as soon as possible, if something comes up.
- Understand you're in charge of your actions and decisions.
- Be open to developing and clarifying your personal values and goals.
- Familiarize yourself with the academic calendar and deadlines.
- Ask questions if you need information or if something is unclear.
- Understand that accuracy for your academic plan is ultimately your responsibility.

Your Academic Advisor's Responsibilities

Your academic advisor will:

- Understand and communicate curriculum, requirements, policies, and procedures.
- Assist you in making course and option decisions.

- Assist you in understanding the purposes and goals of higher education.
- Be accessible to you during posted office hours by email and/or phone.
- Provide a safe place where you can share your thoughts, aspirations, concerns, and interests.
- Provide resources, referrals, and strategies for using other campus resources.
- Listen to your concerns and respect your individual values and choices.
- Encourage and support you as you gain the skills and knowledge necessary for success.
- Assist you in creating an educational plan that is consistent with those goals.
- Help you find balance with your academic, social, and personal activities.

You will meet at least once a semester with your academic advisor to check your academic progress, to check in how you're doing overall, and to remove any holds that would prevent you from registering for the upcoming semester.

You can schedule consultations with your advisor throughout the year and during summer sessions. These consultations will be used to address issues that may not have to do with registration, but could impact your tenure here or your selection of courses, majors, minors, etc.

To schedule an appointment with your advisor, please use the online system at <http://www.colorado.edu/mycuhub/>.

Research Opportunities

The Department of Chemical and Biological Engineering has active research programs in biotechnology and tissue engineering, biosensing, bioengineering and pharmaceuticals, catalysis and surface science, computational science and engineering, energy, fluid and flows, interfaces and self-assembly, membranes and separations, nanomaterials and nanotechnology, polymers and soft materials, and protein engineering and synthetic biology. Undergraduate students make significant contributions to the research and creative work of the Department. Learn more on the website:

<https://www.colorado.edu/chbe/careers/undergraduate-resources>.

Senior Thesis Option

The Department of Chemical and Biological Engineering offers a Senior Thesis Option. Selected students work for two semesters at 2 credit hours per semester on a research project under the supervision of a faculty member, with oral presentations and written reports required. Learn more on the website under the Undergraduate Research Tab: <https://www.colorado.edu/chbe/academics/undergraduate-program/undergraduate-opportunities>.

Student Professional and Honorary Societies

Many students find it most rewarding to participate in various professional and honorary societies. Learn more on the website: <https://www.colorado.edu/chbe/academics/student-groups>.

CHEMICAL ENGINEERING CURRICULUM (4-Year Plan)

*Complete  courses before CHEN 4130

**Complete  courses before CHEN 4520

 Denotes prerequisite sequence

 Denotes prereq/coreq sequence

 Denotes Spring Only Course

 Denotes Fall Only Course

Accepted Course Substitutions

CHEN 2810 – MCDB 1150 or EBIO 1210 AND 1220

CHEN 3200 – MCEN 3021

CHEN 3210 – MCEN 3022 (NOTE: Thermodynamics with a C required as a pre-req to this course)

Writing Requirement

The Writing Requirement can be fulfilled by HUEN1010 (freshmen only), HUEN3100, PHYS 3050, WRTG3030, or WRTG3035.

Humanities & Social Science Electives

Please refer to the ChBE Undergraduate Advising page at <http://www.colorado.edu/chbe/academics/undergraduate-program/current-students>.

Engineering Technical Electives

Please refer to the ChBE Undergraduate Advising page at <http://www.colorado.edu/chbe/academics/undergraduate-program/current-students>.

General Technical Electives

Please refer to the ChBE Undergraduate Advising page at <http://www.colorado.edu/chbe/academics/undergraduate-program/current-students>.

CHEN 3000+ Electives

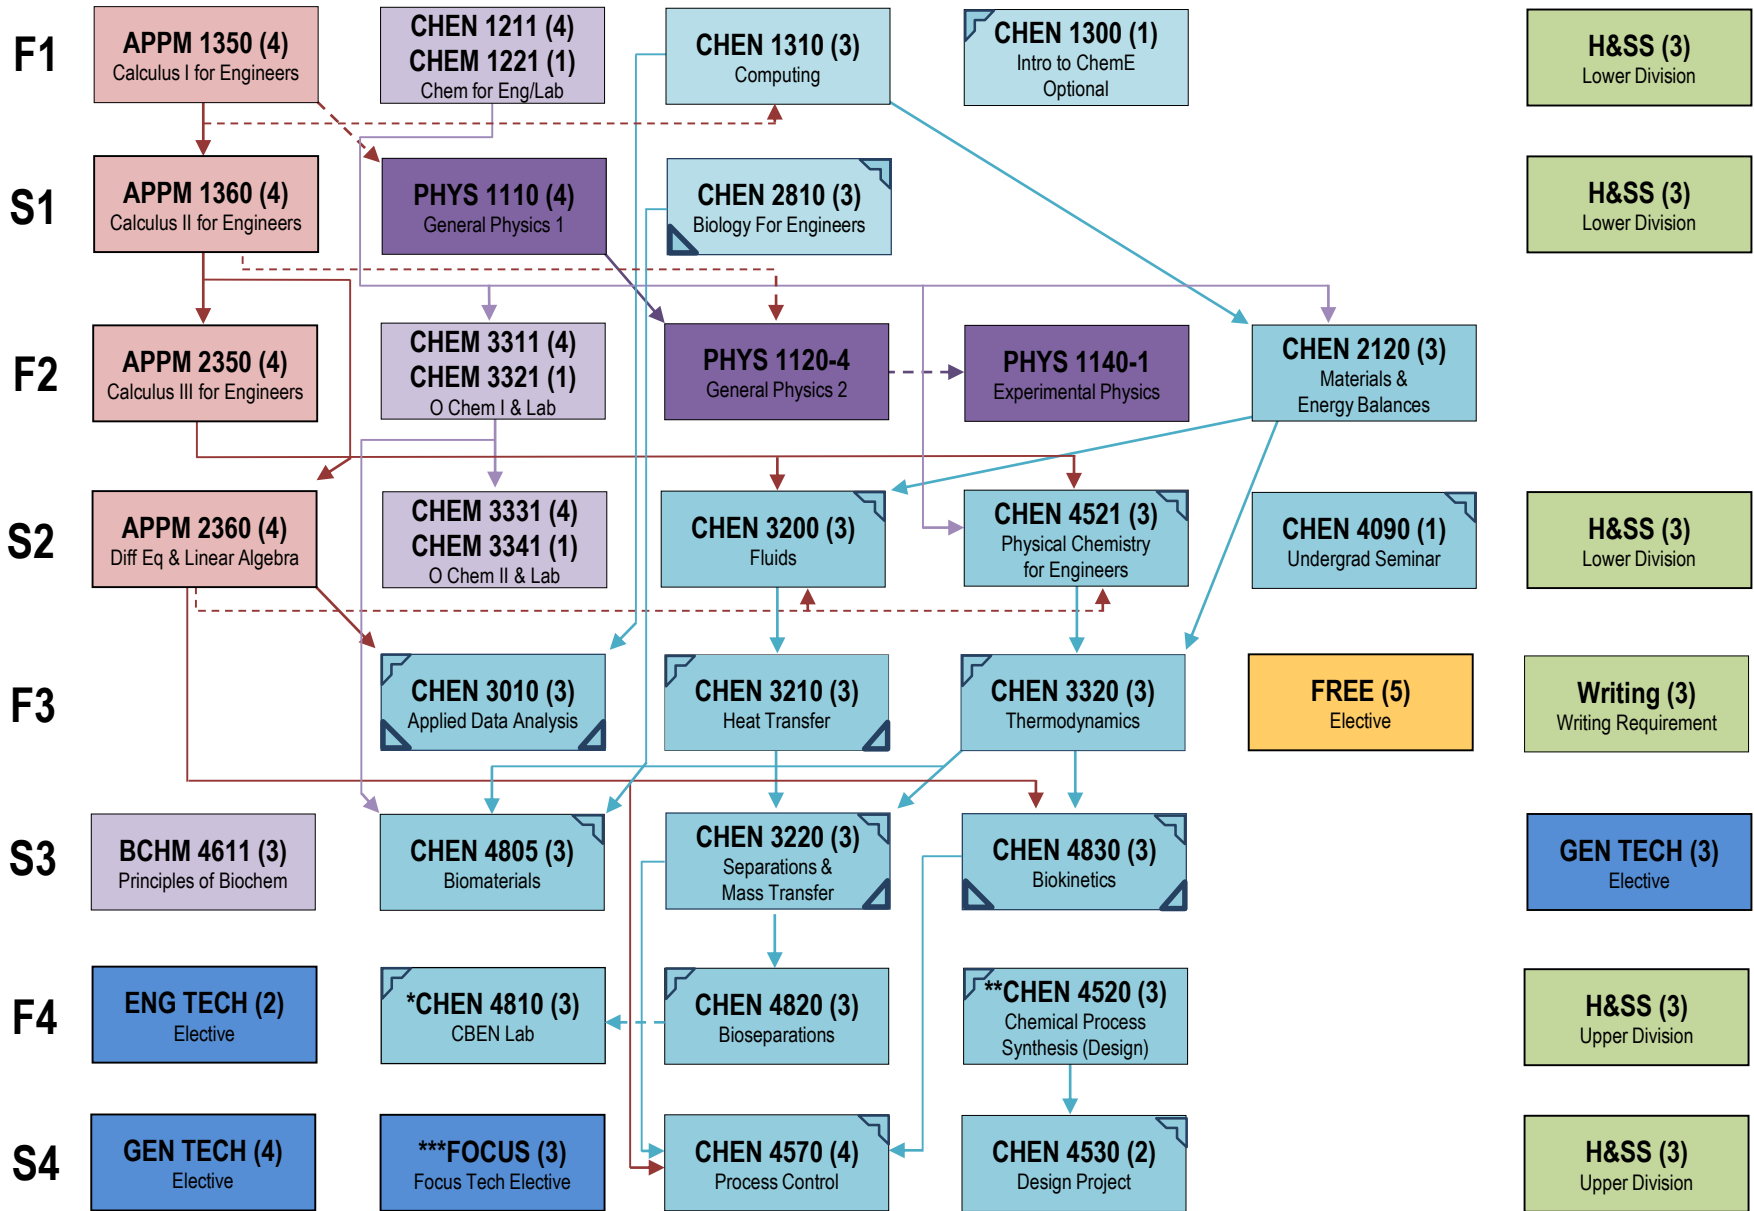

3000 and 4000 level CHEN courses not otherwise required for the major are considered to be CHEN 3000+ Technical Electives. BS/MS students have the same course options, but should complete the classes at the 5000 level.

Grade Requirements

The minimum passing grade for prerequisite and corequisite classes in our curriculum is a C-. This includes courses completed outside the department (APPM, PHYS, etc.). A MINIMUM grade of C is required for CHEN 2120.

In addition, students need to have a cumulative and major GPA of at least 2.25 in order to graduate from the College of Engineering.

***Focus Tech Elective

CBEN-BS students will take either:

- CHEN 4801 (3) – Pharmaceutical Biotechnology (P: CHEN 3320, P/C: CHEN 4830 or 4330)
- CHEN 4802 (3) – Tissue Engineering & Biomedical Devices (P: CHEN 2810 or equivalent, Department restrictions apply)
- CHEN 4803 (3) – Metabolic Engineering (P: BCHM 4611)

These courses are offered on a rotating basis, typically in only in the Spring semester. Please note that this means you may not always be able to take the specific course you want. If possible, we recommend completing the pre-requisites well in advance.
