## **Welcome to the Department of Chemical and Biological Engineering**

Welcome to the Department of Chemical and Biological Engineering (ChBE) at CU Boulder. We are looking forward to helping you have a fulfilling and rewarding time while studying Chemical and Biological Engineering here!

The Department offers two undergraduate degree programs, a Bachelor of Science (BS) in Chemical Engineering (CHEN) and a Bachelor of Science in Chemical and Biological Engineering (CBEN). Both degrees provide excellent training in traditional chemical engineering fields, with the CBEN degree offering additional targeted training in biological engineering.

### **Academic Advising Information**

Academic advising is the process in which you and your advisor work together to set goals for your academic, professional, and personal life. It is a collaborative process and ultimately you are responsible for your educational experience. As you pursue your degree, you have the power to make changes that will set the course for a lifetime of learning. Our hope is that we can help you set those goals and encourage you to reach them and we will help in whatever way possible.

### **Your Responsibilities**

You should

- Check your colorado.edu email regularly. This is the only email your advisor will use.  
Furthermore, most of your classes will send course-related email to your colorado.edu email.
- Keep a record of your academic progress and goals.
- Be familiar with the course sequencing in your program.
- Bring a list of courses you intend on taking for the upcoming semester to your advising meetings.
- Arrive on time for your advising appointments.
- Reschedule your appointment as soon as you're able if something comes up.
- Understand you're in charge of your actions and decisions.
- Be open to developing and clarifying your personal values and goals.
- Familiarize yourself with the academic calendar and deadlines.
- Ask questions if you need information or if something is unclear.
- Understand that accuracy for your academic plan is ultimately your responsibility.

### **Your Academic Advisor's Responsibilities**

Your academic advisor will:

- Understand and communicate curriculum, requirements, policies, and procedures.
- Assist you in making course and option decisions.
- Assist you in understanding the purposes and goals of higher education.
- Be accessible to you during posted office hours by email and/or phone.
- Provide a safe place where you can share your thoughts, aspirations, concerns, and interests.
- Provide resources, referrals, and strategies for using other campus resources.

- Listen to your concerns and respect your individual values and choices.
- Encourage and support you as you gain the skills and knowledge necessary for success.
- Assist you in creating an educational plan that is consistent with those goals.
- Help you find balance with your academic, social, and personal activities.

You will meet at least once a semester with your academic advisor to check your academic progress, to check in how you're doing overall, and to remove any holds that would prevent you from registering for the upcoming semester.

You can schedule consultations with your advisor throughout the year and during summer sessions. These consultations will be used to address issues that may not have to do with registration, but could impact your tenure here or your selection of courses, majors, minors, etc.

To schedule an appointment with your advisor, please use the online system at [Buff Portal Advising](#).

## **Research Opportunities**

The Department of Chemical and Biological Engineering has active research programs in biotechnology and tissue engineering, biosensing, bioengineering and pharmaceuticals, catalysis and surface science, computational science and engineering, energy, fluid and flows, interfaces and self-assembly, membranes and separations, nanomaterials and nanotechnology, polymers and soft materials, and protein engineering and synthetic biology. Undergraduate students make significant contributions to the research and creative work of the Department. Learn more on the website:

<https://www.colorado.edu/chbe/careers/undergraduate-resources>.

## **Senior Thesis Option**

The Department of Chemical and Biological Engineering offers a Senior Thesis Option. Selected students work for two semesters at 2 credit hours per semester on a research project under the supervision of a faculty member, with oral presentations and written reports required. Learn more on the website under the Undergraduate Research Tab: <https://www.colorado.edu/chbe/academics/undergraduate-program/undergraduate-opportunities>.

## **Student Professional and Honorary Societies**

Many students find it most rewarding to participate in various professional and honorary societies. Learn more on the website: <https://www.colorado.edu/ucec/american-institute-chemical-engineers-aiiche>.

## **Curriculum Plans and Graduation Checklists**

Both CHEN and CBEN curriculum plans and graduation checklists are on the following pages. Each plan outlines the curriculum with and without an accelerated chemistry course. All plans can be completed in 4 years, require the same number of credit hours, and cover the same chemistry content. Students with AP/IB chemistry credit or who take a chemistry placement exam can opt to take the accelerated chemistry course. The minimum passing grade for all courses that are prerequisites for other required courses is C-. If a grade of D+ or lower is received in either (1) a course which is a prerequisite to

another or (2) a co-req of a course which is a prerequisite to another, you may not register for the subsequent course until the first grade has been raised to a C- or higher. In addition all CHEN 3000+ courses require a minimum grade of C- even if they are not prerequisites. The minimum passing grade for all other courses is D-.

First Year Fall	15 Credits
APPM 1350 Calc 1 for Engineers	4
CHEM 1221 Gen Chem Lab for Eng	1
CHEM 1211 Accelerated Gen Chem	4
^&CHEN 1300 Intro to ChE	(1)
CHEN 1310 Intro to Eng Computing	3
**H&SS Elective	3

First Year Spring	17 Credits
APPM 1360 Calc 2 for Engineers	4
CHEM 2810 Bio for Engineers	3
PHYS 1110 Physics 1	4
**H&SS Elective	3
Free Elective	3

Sophomore Year Fall	17 Credits
APPM 2350 Calc 3 for Engineers	4
CHEM 3311 Organic Chem 1	4
CHEM 3321 Organic Chem 1 Lab	1
CHEN 2120 Material & Energy Bal	3
PHYS 1120 Physics 2	4
PHYS 1140 Experimental Lab	1

Sophomore Year Spring	16 Credits
APPM 2360 Diff Eq w/Linear Alg	4
CHEM 3331 Organic Chem 2	4
CHEM 3341 Organic Chem 2 Lab	1
CHEN 3200 Fluid Mechanics	3
CHEN 4090 Undergrad Seminar	1
CHEN 4521 Physical Chem for Eng	3

Junior Year Fall	16 Credits
CHEM 4011 Modern Inorganic	3
CHEN 3010 Applied Data Analysis	3
CHEN 3210 Heat & Mass Transfer	4
CHEN 3320 Thermodynamics	3
**College-Approved Writing	3

Junior Year Spring	18 Credits
CHEN 3220 Separations	3
CHEN 4330 Kinetics	3
CHEN 4440 Materials	3
^^^Materials Elective	3
Free Elective	3
*H&SS Elective	3

Senior Year Fall	15 Credits
CHEN 4130 ChE Lab	3
CHEN 4520 Chem Process (Design)	3
^^^Materials Elective	3
^^Technical Elective	3
**H&SS Elective	3

Senior Year Spring	15 Credits
CHEN 4530 Design Project	2
CHEN 4570 Process Control	4
^^Technical Elective	3
^&Technical Elective	3
**H&SS Elective	3

^&If CHEN 1300 is taken, one of the Technical Elective courses will reduce from 3 to 2.

^^15 Technical Electives: Nine credits can come from the [Approved Technical Electives](#) and at least 6 credits must be CHEN 3000+.

^^^Suggested Materials Electives: CHEN 4450 Polymer Chemistry, CHEN 4460 Polymer Engineering, CHEN 4650 Particle Technology, CHEN 4805 Biomaterials, CHEN 4836 Nanomaterials (Cannot be taken if CHEN 4440 is taken.), or CHEN 4480 Solar Cells. ^^One of the CHEN 3000 Materials classes can be an Independent Study (CHEN 3840 or 4840) that can also count as one of your CHEN 3000+ Technical Electives.

\*\*When selecting H&SS electives and the College-Approved Writing Course, consult the [College's degree requirements](#).

## \*\*\*Focus Tech Elective

CBEN-BS students will take either:

- CHEN 4801 (3) – Pharmaceutical Biotechnology (P: CHEN 3320, P/C: CHEN 4830 or 4330)
- CHEN 4802 (3) – Tissue Engineering & Biomedical Devices (P: CHEN 2810 or equivalent, Department restrictions apply)
- CHEN 4803 (3) – Metabolic Engineering (P: BCHM 4611)
- CHEN 4838 (3) – Protein & Enzyme Engineering (P: CHEN 2810, CHEN 3320, and BCHM 4611)
- CHEN 4838 (3) – Immunoengineering (P: CHEN 2810 or MCDB 1150 and CHEN 4330 or CHEN 4830)

These courses are offered on a rotating basis. Please note that this means you may not always be able to take the specific course you want. If possible, we recommend completing the pre-requisites well in advance.

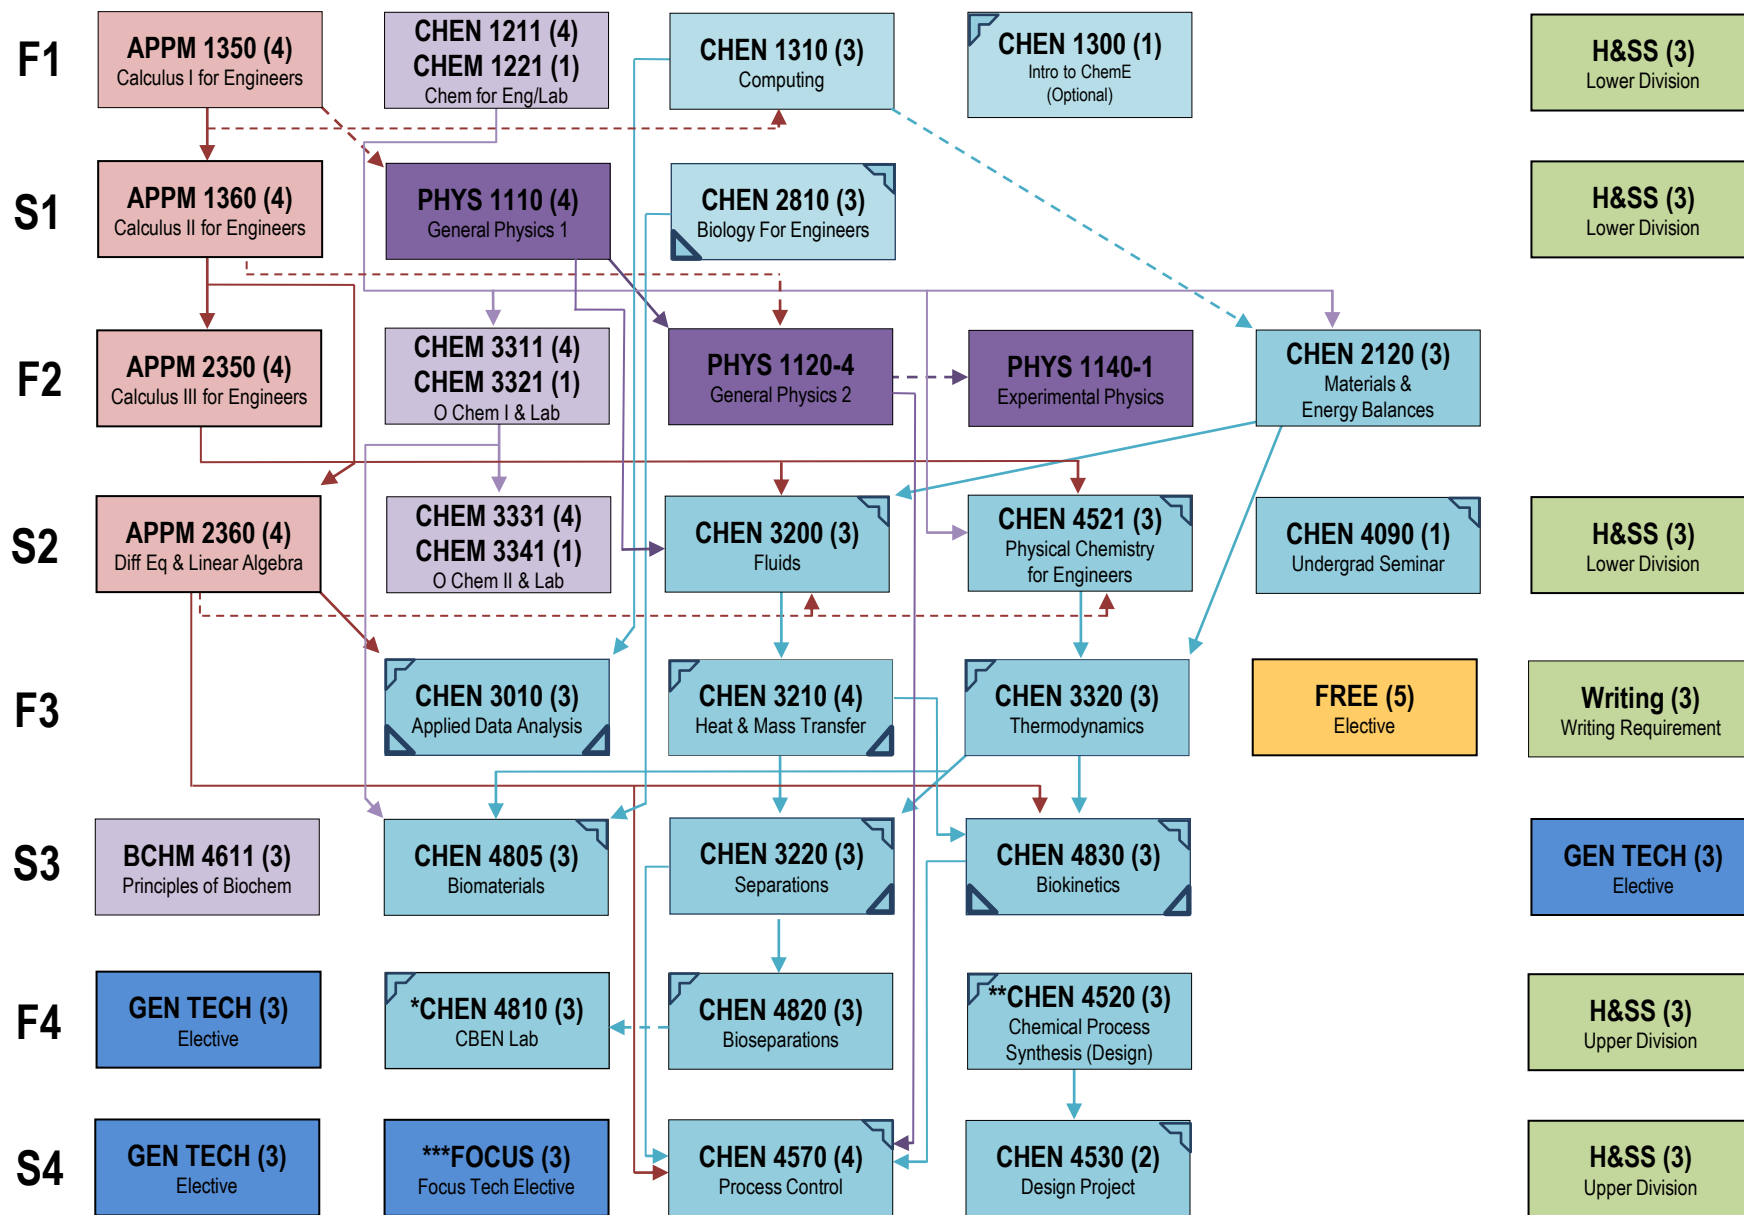

## Grade Requirements

The minimum passing grade for prerequisite and corequisite classes in our curriculum is a C-. This includes courses completed outside the department (APPM, PHYS, etc.).

In addition, students need to have a cumulative and major GPA of at least 2.0 in order to graduate from the College of Engineering.
