Graduate Student Networking Night

This year WiSE is hosting the first and only networking event catered specifically towards graduate students and Post-Docs. Companies such as Ball Aerospace, Phillips 66, Agilent Technologies and more!

This is a great space to introduce yourself to the industry and show off your resume!
WiSE hosts monthly Seminars and workshops of various topics for students. Keep an eye out our upcoming topics for this year:

- WiSEdom - Navigating grad school
- Taxes, budget, and retirement
- Mental Health Resources
- Networking
- How to be an ally
- Communications

Every year we host mentoring program, be on the look out for applications in the fall!!

Our mentoring program pairs students, post-docs, and employees with STEM professionals to share experiences, advice, and ideas! The program has with monthly meetings, personalized professional pairings, and community events.

The purpose of the WiSE Science Communication (SciComm) Symposium is to expose WiSE members and the CU research community to useful methods for communicating scientific achievements and ideas with the broader public. This event includes a workshop, showcasing CU Boulder research, and a keynote speaker!
