I understand that:
✓ if admitted to this program that I must be released from any other double degree or double major program.
✓ if admitted to this program, the 4-year guarantee for graduation will not be applicable to my enrollment.
✓ I am working toward completion of both undergraduate and graduate programs simultaneously and that I must complete all the degree requirements to receive both degrees at the end of the program. If I withdraw from the program and complete the requirements for the bachelor's degree as described in the policies, I may receive a bachelor's degree. If I wish to pursue a regular master's degree or a doctoral degree after withdrawing from or completing this program, I must apply and be admitted to the Graduate School. All Graduate School minimum standards apply to eligibility for admission to the Graduate School; department-specific requirements may be waived by the department as approved in the department's concurrent degree proposals. In this case, courses may not be overlapped.
✓ to comply with Title IV Higher Education regulations, CU-Boulder students pursuing a concurrent bachelors/master's degree will automatically be changed to graduate status after the completion of 130 credit hours (or 145 credit hours for a student in the College of Engineering and Applied Science). Students at graduate status are assessed graduate tuition rates and are no longer eligible for COF. In addition, graduate students receiving financial aid are considered "independent" and are no longer eligible for aid requiring undergraduate status.

I have read the departmental policies and requirements for this program.

Please note that the Graduate School is responsible for changing major codes for students who have been accepted into the concurrent degree program. The new major code allows identification and tracking of these students. Note: certain codes previously used are now obsolete: EPO2, KIN2, ISA2, and IST2 were replaced by EBI2, IPH2, SYA2, and SYT2, respectively.
