

CU Museum of Natural History presents:

AIA LECTURE SERIES

At Home on Board: the Kyrenia Ship and the Goods of its Crew

Dr. Andrea Berlin, Boston University

The Kyrenia shipwreck, discovered in 1964 off Cyprus, is the best preserved small Greek merchant ship ever found. Its cargo included amphoras, millstones, iron ingots, almonds, oak planks and logs—plus whole and fragmentary vessels that comprised the goods of the crew. Those particular goods provide a glimpse into life on board for the crewmembers ca. 300 B.C. In this lecture, Dr. Berlin explains what they can tell us of the place and date of the ship's final departure, the character of the people working on board, and more.

Tuesday, October 30th | 7–8:30 p.m. | Hale Science 270

**Free and open to the public. Doors open 45 minutes prior, seating is limited.
1350 Pleasant St, Boulder, CO 80302**
