

Commencement 2026

One Hundred and Fiftieth Year of the University

Folsom Field | May 2, 2026

University of Colorado **Boulder**

Norlin Charge to the Graduates

The first commencement at the University of Colorado was held for six graduates on June 8, 1882, in the chapel of Old Main. It was not until 40 years later, on September 4, 1922, that the first summer commencement was held. Since the first commencement in 1882, the University of Colorado Boulder has awarded more than 320,000 degrees. The traditional Norlin Charge to the graduates was first read by President George Norlin to the June 1935 graduating class.

You are now certified to the world at large as alumni of the university. She is your kindly mother and you her cherished sons and daughters.

This exercise denotes not your severance from her, but your union with her. Commencement does not mean, as many wrongly think, the breaking of ties and the beginning of life apart. Rather it marks your initiation in the fullest sense into the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit.

The university is not the campus, not the buildings on campus, not the faculties, not the students of any one time—not one of these or all of them. The university consists of all who come into and go forth from her halls, who are touched by her influence, and who carry on her spirit. Wherever you go, the university goes with you. Wherever you are at work, there is the university at work.

What the university purposes to be, what it must always strive to be, is represented on its seal, which is stamped on your diplomas—a lamp in the hands of youth. If its light shine not in you and from you, how great is its darkness! But if it shine in you today, and in the thousands before you, who can measure its power?

With hope and faith, I welcome you into the fellowship. I bid you farewell only in the sense that I pray you may fare well. You go forth, but not from us. We remain, but not severed from you. God go with you and be with you and us.

Land Acknowledgment

The University of Colorado Boulder, Colorado's flagship university, honors and recognizes the many contributions of Indigenous peoples in our state. CU Boulder acknowledges that it is located on the traditional territories and ancestral homelands of the Cheyenne, Arapaho, Ute and many other Native American nations. Their forced removal from these territories has caused devastating and lasting impacts. While the University of Colorado Boulder can never undo or rectify the devastation wrought on Indigenous peoples, we commit to improving and enhancing engagement with Indigenous peoples and issues locally and globally.

We will do this by:

- Recognizing and amplifying the voices of Indigenous CU Boulder students, staff and faculty and their work.
- Educating, conducting research, supporting student success and integrating Indigenous knowledge.
- Consulting, engaging and working collaboratively with tribal nations to enhance our ability to provide access and culturally sensitive support and to recruit, retain and graduate Native American students in a climate that is inclusive and respectful.

Dear graduates:

One of the greatest honors for the University of Colorado Board of Regents, the institution's governing board, is to be part of this commencement ceremony. Your success is a success for us all. Your degree reflects not only your dedication and talent, but also serves as a signal to the world that you possess the skill and discipline to contribute meaningfully to any endeavor you pursue.

This commencement ceremony, like every University of Colorado graduation since 1935, will close with the reading of the Norlin Charge. As originally expressed by former CU President George Norlin in 1935, graduation "marks your initiation in the fullest sense of the fellowship of the University, as bearers of her torch, as centers of her influence, and as promoters of her spirit." Welcome to the ranks of CU's alumni family, now more than 588,000 strong. Congratulations on achieving this milestone. Well done and well earned!

Cordially,

The Regents of the University of Colorado

The President of the University of Colorado

Congratulations, graduates! You did it! The entire University of Colorado community celebrates you and your achievement, and we're rooting for your continued success.

With your CU degree and all that you've learned during your time here, you're well-positioned for the future, no matter where life takes you. You're now part of an extraordinary network of CU alumni making significant contributions to their communities, the state of Colorado, the nation and the world. My own CU education has served me very well over the years. I know yours will too.

All the best,

Todd Saliman
President
University of Colorado

You worked hard to reach this milestone, and you undoubtedly received support from others along the way. I urge you to pay it forward as you make your way in the world. You'll discover – if you haven't already – that helping others is one of the most rewarding and important things you'll do in life.

On behalf of the CU community, I wish you great success and fulfillment now and in the years to come. Again, congratulations!

The Chancellor of the University of Colorado

Dear graduates,

Congratulations on earning your degree from the University of Colorado Boulder! The entire campus and the Boulder community celebrate alongside you on this momentous occasion.

Today marks the end of one era and the start of an exciting new chapter in your life. The curiosity, determination and courage you have developed during your years at CU Boulder will serve you well as you venture forward.

As you celebrate future successes and face inevitable challenges, I hope you will be encouraged to remember that you have already overcome and achieved so much. As your life unfolds in its own unique way, my hope is that

you will hold tight to honor, integrity and accountability, as the Colorado Creed reminds us.

Commencement is also an opportunity to acknowledge with gratitude the family, friends, educators, role models and supporters who have helped light your path. Today you join hundreds of thousands of alumni who will continue to light the way as you strive to leave a positive mark on humanity, across Colorado and around the world. Those who enter the community of Forever Buffs never roam alone.

May you savor each moment—today included—and find health, happiness and prosperity in all your endeavors.

Sincerely,

Justin Schwartz

Academic Dress

In 1895, U.S. colleges and universities adopted a uniform code governing academic dress. University of Colorado master's and doctoral degree recipients wear hoods lined with the university colors, silver and gold. The velvet border indicates the degree and usually follows the same code as the color of the tassels.

The Oxford cap, or mortarboard, has a long tassel fastened by a button on the top. Candidates for baccalaureate degrees wear the tassel over the right front

of the cap before the degree is conferred, and over the left thereafter. The color of the tassel on the bachelor's cap indicates the field of study, with the exception of candidates from the College of Arts and Sciences, who wear white tassels. Master's tassels are black, and doctoral tassels are gold.

The Presidential Chain of Office and the University Mace

The Presidential Chain of Office and the University Mace were created by Mary Sartor, MFA, University of Colorado Boulder. Both were gifts to the university by Mr. and Mrs. David G. Hawthorn, Class of 1924.

Colorado gold and silver are used in both pieces to symbolize the importance of these minerals to the history of the state. The chain's gemstones also consist entirely of minerals from Colorado.

The chain, created in 1980 for the inauguration of President Arnold R. Weber, holds three suspended pendants. The back pendant is the seal of the state of Colorado surrounded by a golden ribbon representing the golden circle of knowledge. The top pendant in the front is the seal of the University of Colorado surmounted by an arch set with diamonds and topaz, signifying the necessary link between the search for knowledge and its practical application to the world beyond the university.

At the center of the bottom pendant is a gold topaz indicating the quest for knowledge. The surrounding ring is inset with fragmented cubes and diamonds.

The University of Colorado Mace was created for the commencement ceremonies of May 1984. The foot of the scepter is encased in sterling silver bound in 14-karat gold, ending in an intaglio of the seal of Colorado. The shaft of the mace was carved from a black walnut tree thought to have been one of the saplings given to the settlers of the Colorado Territory by President Abraham Lincoln.

Sterling silver was also used in the crown, and the university seal is bound in gold and supported by an inner rod of gold surrounded by eight arching tapered silver ribs. At the base, the motto of the university, translated as *Let Your Light Shine*, encircles the crown in Greek characters. The wooden staff is bound at intervals in gold and silver rings.

The University Seal

In its history, the University of Colorado has used three different seals. The current seal, adopted in 1908, depicts a male Greek classical figure sitting in front of a pillar and holding a scroll. Next to the figure, laurel branches frame a burning torch. The inscription in Greek reads Let Your Light Shine. The seal's designer, Henry Read of Denver, chose the classical motif because Greek civilization stood as the criterion of culture. The laurel symbolizes honor or success; the youth suggests the morning of life; and the scroll represents written language.

From 1893 to 1908, the university seal was a copy of Wyon's medallion, Science Trims the Lamp of Life. In this version, a Greek woman knelt before a lamp, and stalks of mariposa lilies decorated the border. Before 1893, an adaptation of the Colorado state seal was used, but it was never adopted by the Board of Regents.

The seal is used primarily on official documents, such as diplomas and transcripts that have been issued on behalf of the university. The Board of Regents uses the seal on its official documents and publications. The seal also appears on the President's Chain of Office, the University Mace, regent regalia and various formal publications.

Pomp and Circumstance

Pomp and Circumstance is traditionally played in Canada, the Philippines and the United States as the processional tune during academic graduations. It was first played at a commencement on June 28, 1905, at Yale University, where the composer, Sir Edward Elgar,

received an honorary doctorate of music. The version enjoyed at the University of Colorado Boulder ceremonies is performed by faculty and students from our College of Music, and includes three different styles: jazz big band swing, Latin jazz and New Orleans Second Line.

Commencement Speaker

Kristin Davis

Kristin Davis is best known for the Emmy- and Golden Globe-winning series "Sex and the City," in which she starred as the ever-hopeful Charlotte York for six seasons. The role earned her individual Best Supporting Actress nominations for both an Emmy and a Golden Globe Award. Davis and her co-stars also won two Screen Actors Guild Awards® for Outstanding Performance by an Ensemble in a Comedy Series. Davis reprised the role of Charlotte for the HBO Max series, "AND JUST LIKE THAT...", a new chapter of the groundbreaking series, "Sex and the City," from executive producer Michael Patrick King, starring and executive produced by Sarah Jessica Parker, Kristin Davis, and Cynthia Nixon. The new series premiered in December 2021 and ran for three seasons.

Filmed in New York City, Carrie, Charlotte and Miranda navigate the journey from the complicated reality of life and friendship in their 30's to the even more complicated reality of life and friendship in their 50's.

In January 2025, Davis launched the weekly iHeart podcast, "Are You a Charlotte?" More than just a rewatch of the beloved "Sex and the City" series, it brings the past and present together as Davis discusses with her special guests themes from the show and it brings the past and present together as Davis and her guests discuss the ongoing relevance of the show's many themes. Heartfelt and fun, they share behind the scenes stories and talk about how the show helped to shape their opinions and the entertainment industry.

Honorary Degrees

Alice D. Mortenson

Honorary Degree

As both chair and president of the Mortenson Family Foundation, Alice D. Mortenson is committed to fostering partnerships that create opportunities, drive equity and develop sustainable systems for positive community change.

Based in Minneapolis, Minnesota, the Foundation was founded in 1999 by Alice and her husband, M.A. “Mort” Mortenson Jr. Mort’s family construction business has been thriving since Mort acquired it in 1969. They’ve developed the Walt Disney Concert Hall in Los Angeles, Target Field and U.S. Bank Stadium in Minneapolis, Coors Field in Denver, Levi’s Stadium in San Francisco, and over 230 sports and entertainment venues nationwide.

Over the years, the Foundation has expanded opportunities for children and families in Minneapolis-Saint Paul neighborhoods, enacted environmental systems through community-led stewardship, and supported international development. The Foundation has provided extensive grants to an ever-growing network of community organizations.

Alice’s commitment to the community goes beyond financial support. She connects with people directly so local voices are amplified to carry the Foundation’s initiatives forward. The organization has invited members of the community to serve on its grant committees, demonstrating her belief that philanthropy should be shaped by those it aims to serve.

The Mortensons have a special place at the University of Colorado. Mort earned his civil engineering degree from CU in 1958, and continued to visit the campus yearly until he passed in 2019. His biggest interest was meeting students and hearing about their experiences with global engineering coursework.

In 2009, the Mortensons provided a significant endowment to create what is now the Mortenson Center in Global Engineering & Resilience at CU Boulder’s College of Engineering and Applied Science. The

Center trains engineers to go beyond development and recognize issues that communities face—from ensuring safe drinking water for communities in Kenya and Ethiopia (currently monitoring water supplies for over a million people) to developing technologies that address air quality, sanitation, and food security.

Alice contributes to several institutions including her own alma mater, University of Wisconsin-Madison, where she earned a degree in history. She formed the Alice D. Mortenson/Petrovich Chair in Russian History at the University in 2005. She also created the Alice D. Mortenson Russian History Award, which provides scholarships to undergraduate students studying Russian history. She has served on the Board of Directors at the University.

Alice served as a Trustee at Macalester College in St. Paul, where she was named Trustee Emerita in 2023. There, she has also been recognized as a member of the Charles Macalester Society for extraordinary lifetime giving. For more than 25 years, Alice has also served as a Trustee at Westminster Presbyterian Church in Minneapolis.

Along with Mort, she is a founding member of the United Way Century Legacy Society. To this day, Alice’s four sons and their wives are all involved with the Foundation along with other community development initiatives.

As one nominee put it: “Alice Mortenson’s fingerprints are on the very fabric of our community. Her passion, generosity, and tireless leadership have built a remarkable legacy that will undoubtedly inspire others for generations to come.”

Dr. William M. King

Honorary Degree

For 40 years, CU Boulder was honored to have Dr. William M. King as a professor. Now retired, his legacy lives on at the University and beyond.

Dr. King started his career as an elementary school teacher and came to the University in 1972. He is the longest-serving Black professor at CU Boulder and the second tenured African American professor at CU Boulder.

As a professor, Dr. King educated and inspired students by teaching Afroamerican Studies. In fact, he led one of the institution's first classes on Black studies. Dr. King facilitated other courses spanning politics, African American scientists and inventors, ethics of social research, and Afrocentric research methods. Notable classes he instructed include "Black Religious Life in America," "The Life and Times of the Reverend Dr. Martin Luther King, Jr.," "The Civil Rights Movement," and "Black America and the War in Vietnam."

In 1974, Dr. King was a principal author of shaping the courses offered in Black Studies into a major so that students could earn a Bachelor of Arts degree in the discipline.

Also in 1974, he served as the Director of Black Studies, a role he held through 1975 until he took it on again from 1982 to 1986. He was the Publications Unit Director for the CU Boulder Center for Studies of Ethnicity and Race in America (CSERA). As Associate Chair of the Department of Ethnic Studies twice (from 2002 to 2005 and from 2007 to 2010), King wrote the first proposal for the Ph.D. in Ethnic Studies, which still exists today.

Dr. King authored two books during his time at CU Boulder. He penned *Going to Meet a Man: Denver's Last Legal Public Execution, 27 July 1886*, a book on Denver's last public execution in 1886. He also wrote *How to Write Research Papers: A Guide for the Insecure*. His recent work highlights how 137 Black men in the 1860s delayed Colorado's statehood in their effort to secure voting rights.

His contributions extended beyond the classroom at CU Boulder. He was a champion for increased minority enrollment and faculty representation at the University. Demonstrating his commitment to this arena, King co-founded the National Council for Black Studies, which promotes academic excellence and social responsibility in the field. Dr. King also served as national chairman of the Council.

He was recognized in 2005 by the CU Boulder Graduate School when he received the Best Should Teach Award. Dr. King received the Paul Robeson & Zora Neale Hurston Celebrated Elder Award for Outstanding Leadership and Service in the Promotion of African Humanity from the National Council for Black Studies in 2012. That year, he was also recognized as Professor and Esteemed Colleague of Black Studies at the University of Colorado Boulder for 40 Years of Excellent Scholarship, Teaching, and Service from 1972 to 2012.

A veteran of the US Navy, Dr. King served as an aviation fire control technician, embarking on three trips to the Western Pacific aboard the USS Midway.

Dr. King served in various roles including as a Board Member for the Urban League of Metropolitan Denver, as well as on the Board of Trustees and as Vice Chairman of the Board for the Black American West Museum in Denver. Dr. King was a member of the Colorado Historic Preservation Review Board from 2008 until his retirement in 2012.

A nominee described this recognition of Dr. King perfectly, writing, "His lifelong dedication to others, through his educational endeavors to be sure, but not limited to such, are what makes Dr. King immensely worthy of this honor."
