

Anthropology Hall

Anthropology is the study of humans. There are four fields of anthropology:

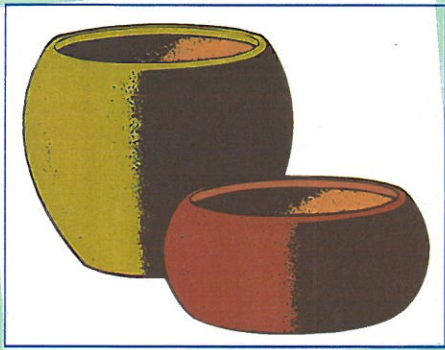

1. Cultural
2. Physical
3. Linguistic (language)
4. Archaeology

Cultural anthropology is the study of human cultures living today.

Physical anthropology is the study of physical characteristics and genetics among human groups, our ancestors, and primate relatives.

Archaeology is the study of peoples from the past based on the artifacts or objects they left behind.

Linguistic anthropology is the study of language in human culture.

Hidden in this word search are five words that relate to anthropology. Find and circle the words in the word search **AND** find and circle the words in the captions beneath each picture above.
