

DISCOVERY Guide

Location: Anthropology Hall

Topic: Technology

Draw a picture in the phone screen of YOU using technology!

What is technology?

Technology is the tools and skills we use to accomplish goals. Computers, cell phones, and more help us every day. Let's explore some technology used by Colorado's earliest residents, such as stone tools and pottery!

Cross off what you find!

bowl axe jar
scraper arrowhead
knife mug
pitcher

Find the technology:

In *Unearthed*, notice there are no hunting tools like spears or arrowheads. How do you think people used these tools instead?

Check your answer on the back!

Check out the pottery display. How do you think people used these different types of pottery?

Check your answer below!

Decorate this jar with a picture of YOU using ancient technology!

Discuss with friends or family...

Why is technology important to you?

Why do you think technology was important to Colorado's earliest residents?

Did you know...

The Ancestral Puebloans decorated their pottery with patterns, animals, and more that were important to their lives!

ANSWERS:

Back side: The pottery was used to cook meals, store food and water, serve meals, carry water across the land, and more!

Front side: These stone tools were used after animals had already been hunted. Their sharp edges were used to cut and scrape the meat to get it ready to eat!
