

Colorado Plants

Did you know that another word for plant is flora? Every geographical region has its own flora. This is true for Colorado as well as other states and places. Find the rotating Flora of Colorado kiosk. Look at the label on each framed plant to help you match each photograph below with its name. Draw a line from each photograph to the name it matches. One has already been done for you.

Foothill Arnica

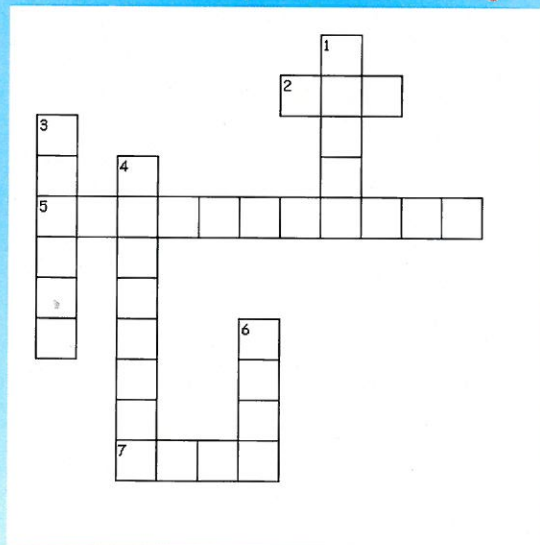

Pinon Pine

Fireweed

Tufted Hairgrass
