- A. 99 LCB 03
 - i. Powell: So the point of this bill is to make sure the OneDrive isn't a disaster. For those of you who don't know, the Google Drive was an absolute mess, and the OneDrive will become a similar mess if we don't do something about it. I'm going to start rearranging the OneDrive to match the SOP I've made, so don't touch anything until I can tell you all how it works. If you really need to add something to the OneDrive, email or text me, and I'll tell you where it goes.
 - ii. Craig: If you don't know, Keenan has done a tone or work on organizing CUSG.
