

Welcome to the Center for Water, Earth Science and Technology (CWEST)

Our mission is to coordinate and facilitate interactions between the USGS and INSTAAR and also promote the research and education missions of both organizations.

CWEST Membership

How do CWEST members participate?

Our members maintain a commitment to collaborative activities in research and/or education in earth and environmental sciences and engineering through participation in research and educational programs of the Center.

Am I qualified to become a CWEST member?

Members must be employed by CU-Boulder or a USGS unit in the Front Range. Additionally, members must be actively involved in training, research and/or education related to earth and environmental science and engineering.

How do I become a CWEST member?

There are several ways to become a CWEST member:

- (1) Interested persons may send a petition to the CWEST Director
- (2) A current CWEST member may nominate a new member
- (3) The USGS Assistant Branch Chief of the Central Region NRP or another designee of the USGS may nominate new members

Nominations and petitions may be sent to CWEST's Program Manager via email at c-west@colorado.edu. Membership requests are approved by a majority vote of CWEST's Executive Committee. Members may serve for a renewable four year term at the pleasure of CWEST's Director.
