

April Check-In

As we step into the final stretch of the semester, this is a great time to stay focused, plan ahead, and set yourself up for success.

Be sure to schedule an advising appointment early to review your course plan. Before you enroll, double-check that you have the necessary prerequisites and connect with your Academic Advisor if you have any questions.

Schedule Alert: EARTH 2700 In May 2027!

Planning ahead? EARTH 2700 (Intro to Field Geology) will not be offered in Spring 2027 and will instead run as a Maymester course. If it's on your degree path, be sure to plan for May!

Fall Honors Thesis - Deadline Approaching

Are you interested in doing an Honors thesis this spring? Now is the time to get working! **April 22nd** is the deadline to register your project with the Honors Council. Prior to that, you will have to find an advisor, develop your project, and meet with the Geology Honors Council representative (Professor Brian Hynek) to gain approval. Questions can be sent to hynek@lasp.colorado.edu.

Funding & Grants Closing Soon:

GSA On to the Future Scholars Program

Applications are now open for the Geological Society of America on to the Future (OTF) Scholars Program, which supports students in attending the GSA Connects annual conference. Selected scholars receive travel funding, meeting registration, and GSA membership, along with mentorship, networking opportunities, and access to exclusive workshops and field trips designed to build community and professional connections. Applications are open and close **May 7th, 2026**

THE
GEOLOGICAL
SOCIETY
OF AMERICA®

- GSA Annual Meeting is in Denver this year **Oct 11th - 14th**

More Information!

Research in the Rocky Mountains

The Colorado Mountain Club Foundation is accepting applications for 2026 fellowships supporting student research in the Rocky Mountain region. Grants range from approximately \$500–\$2,000 and are open primarily to graduate students, though undergraduates are also eligible. Supported disciplines include geology, biology, chemistry, environmental studies, geography, forestry, history, law, and related fields. **Applications are due April 15th** and **require a faculty sponsor letter**. Send your application to: Paula.Cushing@dmns.org Learn more by clicking the link below:

AAPG Veteran's Scholarship

The Deana and Paul Strunk Military Veterans Scholarship Program supports education and career opportunities for veterans, aids in the transition of veterans to educational and civilian technical professions, and promotes geoscience programs in higher education institutions.

The Foundation awards scholarships ranging from \$2,500 to \$5,000 to cover the cost of attending a four-year accredited college or university. Scholarships are available to both active U.S. military service members (including National Guard and Reserve) or veteran members separated from active military service who have been honorably discharged, and are entering or re-entering a post-secondary undergraduate program in a field of geoscience full time or part time. Eligibility also includes military dependents (spouses and children) for the following categories: deceased, disabled, active and veteran. **Deadline: April 30th, 2026**

Apply Here

Dallas Geological Society Scholarship

The Dallas Geological Society (DGS) Scholarships are one-year awards of up to \$5,000 given to current undergraduate and graduate students pursuing a degree in Geological Sciences. Selection is based on academic achievement, financial need and school and extracurricular activities. Preference will be given to undergraduates who have completed 12 semester hours of advanced or core geology courses beyond the introductory level. **Deadline: May 1st, 2026**

Apply Here!

Department Events

Geological Sciences Department Picnic

Everyone in the department is invited! Food will be provided and there will also be a brief awards ceremony. See the flyer attached for details.

Thursday April 23rd 5-7:30PM!

We truly hope to C U there!

Please fill out the RSVP link below if you plan on joining us.

Fill Out Form Here

Coffee Hour!

Come join us this **Monday, April 13th**, and every Monday from **10:30-11:30 AM** for some delicious coffee, tea, and treats! All students and faculty are welcome!

Colloquium Speaker

Join us next week for a GeoColloquium featuring Dr. **Allison Pfeiffer** from Western Washington University. She will present her latest research, drawing on exciting fieldwork and geologic observations to explore key questions in Earth science and landscape evolution. Dr. Pfeiffer's work highlights how field-based insights can deepen our understanding of geologic processes and environmental change, while offering a closer look at the dynamic systems shaping our planet. **Wednesday, April 15th, 12:20–1:20 PM** in Benson Earth Sciences 380.

Jobs & Other Opportunities

New Opportunities: Added Weekly

New internships, career events, courses, and more are constantly being added to the Opportunities Folder. Be sure to check it regularly so you don't miss out on the latest updates!

Educational Technologist I

The EarthScope Consortium is seeking a **full-time** Educational Technologist I to bridge the gap between geoscience education and data science. This fully remote, **entry-level** position (Salary: \$60k–\$70k) is ideal for recent graduates with a bachelor's degree in Earth Sciences, Data Science, or EdTech and 2+ years of relevant experience (including internships or technical projects).

In this role, you will develop interactive learning tools, maintain Jupyter Notebooks, and support cloud-based geophysical data analysis using Python and R. Applicants must be U.S.-based with existing work authorization, and the posting will close once the first 100 qualified applications are received, so apply today!

USGS Summer Internship Opportunity

The U.S. Geological Survey is hiring seasonal field assistants for summer positions based in Golden, CO and Albuquerque, NM. These roles are open to current undergraduate students and offer hands-on experience working on field-based geoscience projects. If you're interested in gaining practical field experience with USGS, check out the full job listing and apply below!

CRESCENT Undergraduate Research Opportunity

The Cascadia Region Earthquake Science Center (CRESCENT) is excited to offer a paid, year-long research opportunity for undergraduate students interested in the field of earthquake geosciences through the Undergraduate Twinning Program.

Program Overview:

Duration: **Fall 2026 - Summer 2027**

Academic Year: Students will work at their home institution, regularly meeting with mentors.

Summer: Students will visit one of their mentor's institutions to continue their research. The length of the visit will vary based on the mentor and project needs.

Application Deadline: April 15th, 2026

Rocky Mountain Section Geological Society of America (GSA)

GSA is offering several funding and leadership opportunities for undergraduates, with deadlines approaching between **April 10th (TODAY)** and **April 19th**. Available resources include research grants to fund student projects, travel grants to offset conference costs, and the chance to serve as an Undergraduate Student Representative.

To apply, you must be a GSA student member; membership is \$25 per year and allows you to volunteer at meetings to receive free conference registration. This is a great opportunity to build your professional network,

especially with the national GSA meeting held in Denver this October. Attending provides direct access to graduate school recruiters and industry professionals. To get started, register for GSA student membership online and submit nominations for the student representative role to Stephen Harlan (sharlan92@gmail.com) by the **April 19th** deadline.

GSA Rocky Mountain Section Meeting

The Geological Society of America Rocky Mountain Section Meeting will be held in Albuquerque, New Mexico from **May 17–20th**. This regional conference is a great opportunity to network, connect with other geoscientists, and participate in short courses and workshops. Students who volunteer may receive free registration.

Learn More & Get Involved:

Conservation River Fellow

River Fellows spend the summer working alongside several partners including the Flathead National Forest to:

- Engage river stewardship volunteers
- Support citizen science and agency data collection efforts
- Engage river users in conservation education
- Assist with stewardship and restoration projects along the 219-mile Flathead River system

It's a great opportunity for students interested in gaining hands-on field experience in conservation and river stewardship.

More Information!

Your Input Matters!

Help shape the future of the **Earth Sciences & Map Library** by completing a short survey. Your feedback will guide upcoming revisioning and remodeling efforts, so we encourage all undergraduate and graduate students to participate.
