

## EBIO Seminar Requirement Checklist

At least two weeks before your comprehensive exam, please fill out, sign and submit this form to the EBIO Graduate Coordinator, along with the following:

- 1) "Application for Admission to Candidacy for an Advanced Degree"
- 2) MA or Ph.D. "Examination Report".

All forms for the comprehensive exam are available from the EBIO Graduate Coordinator.

All EBIO master's and Ph.D. students are required to complete the fall- and spring-semester sequence of EBIO 6000, "Introduction to Biological Research." Masters students are required to complete one additional EBIO seminar. Ph.D. students are required to complete two additional EBIO seminars. With the approval of the student's advisory committee, graduate seminars in other departments may be counted toward the seminar requirement. The signature of the student's faculty advisor verifies that the courses listed on this page have been approved for the student's degree program by his/her faculty advisory committee.
